

MAR MAC FARMS

& GUESTS BULL SALE

Downhill Simmentals - Magnusville Farms - Perkin Land & Cattle Co.
1:30 PM - MARCH 5, 2014 - BRANDON, MANITOBA

WELCOME

This year is Mar Mac Farms and Guests Bull Sale 10th Anniversary! It has been 10 years since we moved the sale to the farm and it has been worth it! The bulls look more natural in their own environment and less stressed from moving them in to town. We can also provide you with a homegrown roast beef lunch in appreciation of you attending our sale.

Mar Mac Farms is a fourth generation family farm, where we make our living from the cattle business. The whole family is involved in the feeding, breeding and marketing of our cattle and we all take pride in producing top genetics. We also understand the importance of customer service and honest relations with our valued customers and friends in the livestock industry.

Brett is home full time, farming and running a custom A.I. business. He has selected a group of Black Angus females this past fall to expand his cowherd and this winter was elected to be a member of the Manitoba Angus Board. Melissa runs her own graphic and web design business, Prairie Pistol Designs and is working with Cattle In Motion videoing/picturing cattle and doing online sale broadcasts. She was selected by the Canadian Angus Association to compete in the 2013 World Angus Forum youth competition and her team "The Canucks" were lucky enough to win the title of world champions!

It is an exciting time to be in the cattle business. This past fall, we seen a lot of younger faces becoming involved and the cattle prices are remaining high. Now is the time to trade in your old new bull for top dollar and invest in some fresh genetics. It has been proven that top quality genetics are worth 5 to 10 cents more at the auction mart.

This years line up of bulls has been analyzed with very high standards as the shrinking cow numbers in the country, we only want to offer the best. The Red Angus are selected for both calving ease and power, what ever suits your program. The Black Angus are a powerful set of individuals with some outcross genetics. We are excited with the first set of Simmental bulls out of our new herdsire, Tombstone. This bulls are stout topped, have great hair coats and naturally thick. Every year we try to improve the offering for our customers and we work hard to achieve that goal.

Our guest consignors; Downhill Simmentals (Everett Olson), Magnusville Farms (Shawn and Della Magnusson) and Perkin Land and Cattle Co. Ltd. (Darryl and Tanya Perkin and Family). Downhill and Magnusville bulls have been fed with our bulls all winter.

As always our bulls have been raised with no creep feed, their weaning weights are produced by their mothers milk. These bulls have been developed on a home grown ration that will enhance longevity. You may find fatter bulls at other sales, but our bulls are fed to last.

We look forward to meeting you on sale day, although we can not visit with everyone on sale day we would like to say a heartfelt thanks for attending and supporting our programs.

Thanks

Blair, Lois, Brett and Melissa McRae

p.s. our sale barn is heated but the bulls are on display outside, so dress according.

Online Viewing & Bidding

SALE BROADCAST BY:

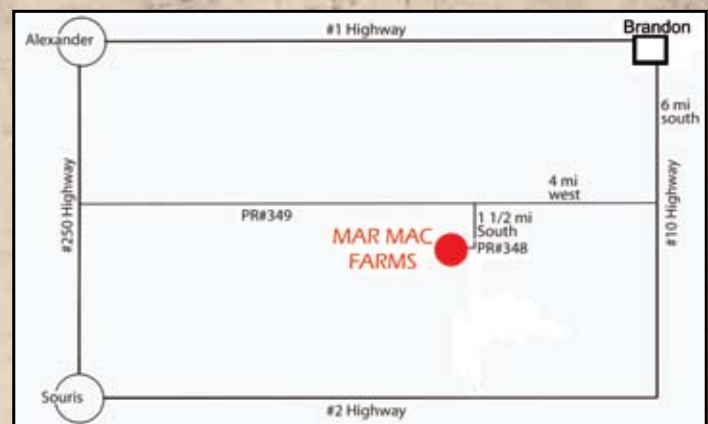

WWW.CATTLEINMOTION.COM

We invite those of you who are unable to attend the sale to be part of the action! With the help of Cattle In Motion we are now able to give you a live connection to the auction. Real-time bidding will be available via the internet for this sale. Please go online a few days before to register. We encourage you to come to the farm ahead of time and check out which bull(s) you are interested in and then bid online if you desire.

Mar Mac Farms & Guests reserve the right to draw semen on any bulls in the sale for their in herd use.

WESTJET NOW FLYS TO BRANDON

NOTE: You can not come north from HWY #2 on PR #348 as the bridge is out!

TERMS AND CONDITIONS

BUYER SELECTION PROGRAMS

Give Mar Mac or any other of the consignors a call anytime... Call us a few days in advance of the sale with your bull needs and we will compile a list of bulls that we feel will work for you. As we are with the bulls everyday, we know the qualities in each bull. If we buy a bull for you sight unseen and you do not like him, you don't own him - no problem! Don't forget to check out the videos!

.....

At the Mar Mac and Guests Bull Sale our fifty plus years of experience as a family run operation means CUSTOMER SERVICE is an important part of our business. We guarantee our bulls 100%, sight unseen purchase satisfaction, wintering program, personal contact after the sale of the bull and the coffee is always on for you to come and view our program.

.....

WE CAN SUPPLY YOU WITH QUALITY BULLS AND CUSTOMER SERVICE

Bull Guarantee...

All bulls have complete a breeding soundness evaluation by Virden Animal Clinic. If your bull fails to be a satisfactory breeder, we will replace him with a bull of equal value or give you your money back. We guarantee you will have a sound bull to service your cows. We will not provide a replacement if your bull has been miss managed. At no time shall the liability exceed the purchase price of your bull. Bulls under one year of age on semen test day will be tested after their birthday, before you need them.

.....

Calving Ease Score...

We evaluate each bull for calving ease determined by bone size, birth weight, birth weight EPD and profile.

Scoring is as follows:

- *** Recommended for use on moderate framed first calf heifers. Should produce minimal or no calving trouble.**
 - ** Recommended for use on large framed first calf heifers & cows. Should produce minimal or no calving trouble.**
 - * Recommended for use on cows. Should produce minimal or no calving trouble.**
-

The Cost of Fuel...

is atrocious, so drive your car! We offer to board you bull free until April 15, after that cost until you need him. As well, we will deliver your bull free to central points in Western Canada or the US Border and cost will be shared to Eastern Canada. We will make every effort to get the bull to your farm. Delivery will be as close to the date you request your bull, but will be at our convenience. If you want to pick up your bull at the farm, you can save \$50 off the purchase price. If you can not take your bull when we are in your area, we would appreciate if you made arrangements to pick up your bull.

Peace of Mind...

Your new bull is a valuable asset and we recommend insuring your bull for infertility coverage and all risk mortality. If you are taking advantage of our wintering program, your new bull must be insured so we both have peace of mind. Insurance will be available from Keystone Livestock Services (a division of Livestock Insurance Managers).

Accidents...

Although every precaution will be taken to protect the safety and comfort of the buyers, neither the sales staff, auctioneer or consignors assume any responsibility in this matter and disclaim any liability, legal or otherwise, in the event of an accident or loss of property.

Terms...

The terms of the sale are cash or cheque payable in *Canadian Funds*. The right of property shall not pass until after settlement is made. All settlements must be made with the clerks before any cattle are released.

Check out the video of Ribeye at www.marmacfarms.net to see the agility and stride he has for the a 6 year old Red Angus Bull! We are so impressed by how docile, free moving, structurally sound and thick topped Ribeye is. No matter what cow he is bred to we are pleased with the results. his daughters are now in production and they are not letting us down, weaning off calves with loads of performance.

EPDS: BW: -0.6 WW: 52 YW: 82 Milk: 14

Our lead off bull is a real sale feature! His full brother was the high selling bull in our 2013 sale, Red Mar Mac Indicator 30Z, to Kenray Ranch, Saskatchewan. This cow family is as powerful and proven as they come. 10T is the dam of our calving ease sire, Red McRae's Mission 71W and Top Cut son that topped the 2011 bull sale to Lazy RC Ranch, Saskatchewan. We have a number of daughters in our herd that go back to 10T.

Initiative 31Z was Senior Bull Calf Champion at Agribition 2012, in 2013 he was named Junior Champion Bull at Agribition, Grand Champion Bull at MLE and was runner up for the 2013 Canadian Angus Show Bull of the Year in all of Canada.

Here is a powerful two year old who we used in our herd last year then successfully showed. We plan in the future to retain a top quality bull, such as Initiative 31Z and use in our program and then market them the next years sale. If you want to add some pounds to your calf crop, depth of body, natural thickness backed by a strong mother cow, here he is! You will wear out a vehicle looking for an individual like this bull!! *Video available online at www.marmacfarms.net*

Owned with Graham Red Angus, Ontario

Here are a powerful set of Vision 50T sons that are full brothers to Reba 121W who sold in Red Roundup to Wildcat Creek and went on to be named the Grand Champion Female at Agribition and a class winner in Denver. Reba 12S sold in Red Roundup a half interest to Graham Red Angus Ontario. We have been flushed 12S to Red McRae's Vision 50T.

A full brother sold in the sale last year to Horner Cattle Co. Proven genetics here and 56A is one of the heaviest bulls in the sale. 50T sons will leave ease of fleshing and strong maternal traits. Check them out.

Hello and Welcome to the Mar Mac Farms & Guest Bull Sale. Once again it is that time of year. Time to start looking for that bull that will put pounds on those calves and also let you sleep at ease during calving season. We're extremely happy to be a part of this great sale here at Mar Mac. We think this is a great bunch of bulls and if you have any questions don't hesitate to call or stop by to ask on sale day. The cattle business is about trust and honesty, that is why we back our bulls 100%. Our bulls are wintered at Mar Mac so stop in and take a look at them. Looking forward to meeting you on sale day!

If you buy your bulls on Genetics this is the bull for you. 12T has produced some excellent bulls for us. If your looking for a calving ease bull look no further than 15A.

HOW MUCH MORE IS A GOOD BULL WORTH

The price spread between calves of equal weight can be 5 cents to 10 cents

A 550 lbs. calf at 5 cents that is a \$27.50 premium

If a bull produces 30 calves per year for 5 years that is equal to \$4125.00

30 calves x \$27.50 x 5 years = \$4125.00

RED CARRIERS

We wanted to add some new outcross genetics to our program. 17S is the Cub female that we purchased back in the Cavers dispersal. 17S' progeny were some of the features of the sale that day. Creed the black red carrier impressed us with his structural soundness, natural thickness and correctness. So we flushed 17S and Creed, boy the results were amazing. Look at the length of body and natural thickness in these bulls. One of the flush sisters sold in the Keystone Klassic Sale to Midnite Oil for a 4-H and Junior heifer. Here is an opportunity to add some new exciting genetics to your program.

RED - HOMOZYGOUS POLLED - PUREBRED

Tombstone X Oberle son. The Oberle son 322U left a solid group of moderate framed, top producing females that will be very productive cows in the future. This young March calf has the structural soundness, complete in his make up, hair and moderate birth weight. His dam is an extremely correct young female. He has outcross pedigree that should be interesting to some producers.

 Brett's Red Iron out of a Red Label female he calls his "pretty little cow." This moderate framed, heavy milking Red Label female always brings in a stout made calf. One of her sons was Mar Mac Rosco who sold to Greg Goudy. Maternal strength in this bull.

MAR MAC FEED PROGRAM

It was a pleasure to work with Mar Mac on their bull development program. We approached Mar Mac's unique business by forage testing and understanding what is on farm first and foremost. We then built them the right plan for the type, breed and genetic potential of the herd. Longevity is top of mind with a forage focused programs that highlights natural performance and potential. Strong emphasis is put on vitamins and minerals to ensure growth and maturity of your next herd sire. Years of sound genetics backed up with a strategic nutritional program is what you will find at this year's bull sale. Candace Ippolito, B.S.A

EPDS - EXPECTED PROGENY DIFFERENCE

The expected difference in performance of a bulls progeny when compared to the average progeny performance of all bulls evaluated. EPD's cannot be compared cross bred. Breed Averaged are at the start of each breed section.

CE	Calving Ease - percentage of unassisted births with the more positive number indicating greater calving ease.
BW	Birth Weight - the birth weight of a bulls progeny when compared to the breed average, in pounds.
WW	Weaning Weight - the adjusted weaning weight of a bulls progeny when compared to the breed average, in pounds.
YW	Yearling Weight - the adjusted yearling weight of a bulls progeny when compared to the breed average, in pounds.
MM	Milk - a measure of amount of pre weaning performance gained by calves which can be attributed to the milking ability of a bull's daughters. The EPD is expressed in pounds of calf.
TM	Total Maternal - each of these terms measures a sires ability to transmit milk production and growth rate though his daughters. It predicts the weaning weight of a sire's daughter's calves. If is equal to the milk EPD plus 1/2 of this weaning weight EPD.

RED - POLLED - PUREBRED

In 2012, Mar Mac decided to try and expand our numbers by putting embryos in Dana and Megan Johns cows. We put in Deb X Red Iron embryos and then in the fall of 2013 when the calves were weaned they returned to Mar Mac. We are using our proven genetics that work to expand our cowherd. Boy what a uniform group of calves we got and thanks to the Dana and Megan, the bulls were well managed and turned out to be quiet individuals. Deb leaves some performance in her calves and like the bull Spotlight who sold to the Archibalds in 2013 extremely long bodied offspring. We got 4 bull calves and 5 heifer calves out of this flush. These calves have some birthweight but length of body weighs and pays dollars at weaning. We sold one of the females at the Keystone Konection Sale, who won the sim acta and sold to Workman Farms. The whole group of calves were like peas in a pod. These bulls with add length, performance and dark red color.

GONE BUT NEVER FORGOTTEN

Andrew Mooney

On June 12, 2013 our lives were changed forever by the passing of Andrew Mooney. "Mooney" worked at Mar Mac Farms on and off for over a decade. With the exception of last years sale he was always the number one choice for help at each Mar Mac Farms & Guest Bull Sale.

Mooney was great at working with cattle, he could fix almost anything and was a very hard worker, not matter the task he got it done. He was especially good at keeping up the crew morale with his quick wit, dry sense of humor and clever "ideas".

Although our sale, our family and our farm will never be the same without him, we think about him everyday and are glad to have had the time that we did with Mooney.

Rick Potter

This past summer we lost a long time friend, Rick Potter. Rick always had a smile on his face and loved to help out on the farm, from driving tractor to helping keep up with harvest.

We lost both of these wonderful people to cancer.
Please make a donation to the Canadian Cancer Society at the settlement table.

Welcome to the sale. First of all I would like to thank Blair and Lois for continuing to make me a part of their sale. I continue to crop just over 1100 acres of grain and have grown my purebred herd to breeding just over 50 cows and a handful of purebred Salers that are now used as embryo recipis or crossbred Simmental. The bulls have been kept at Mar Mac since weaning and are there for your viewing. Thank you in advance for attending and your interest in my program. If you have any questions don't hesitate to call.

Welcome once again to the Mar Mac and Guests bull sale. At PLCC, we are proud to offer you a group of bulls that will go out and provide you with performance and maternal qualities that will propel a herd forward. Have a look at the carcass evaluation EPDs on the bulls; three of the herd bulls we use are in the top 3% for REA and 10% for marbling. At PLCC, we will calve approximately 130 purebred Simmental females this spring and we always look forward to new calves and new genetics. Stop by any time to view the cows, calves and bulls – we look forward to discussing your needs.

The only bull in the pen with any white on his face, he's a good red bull out of one of our favorite Midas cows. Deep, red and hairy, this bull will make those steers with a touch of white to top the market. Lots of calving ease on the mother's side and lots of performance on the sire's side, he has an Adj of 1441 lbs and an ADG of 4.56 lbs/day since weaning. *Homozygous Polled by parentage.*

Another top performing McSteamy son, his Nugget mother has always had top weaning calves and this guy could be her best. With an ADJ YW of 1592lbs, he ranked top in the pen for WPA (4.2lbs/day) and ADG since weaning of 5lbs/day. He is long as a wet week and looks to have lots of scrotal development. If you sell calves by the pound, buy this bull.

This ET calf was raised by a first calf heifer and what a job she did, he is one of our pen favourites. With the growth and maternal of Opal and the hip and butt of On Target, this bull is outstanding. He is extremely long, strong topped and has a presence about him. You may have seen Opal at the 2012 MLE in Brandon where she was Senior Champion with Mader P Dictator at side. 409A is also a full brother to Mader's Iron Man bull. Astute cattlemen, take a good look here.

Homozygous Polled by DNA test.

Another On Target son that is certainly impressive. Out of another Pembina Triangle first calver, this guy has a very moderate mother with a nice udder. He could definitely go to work in someone's heifer pen. His Adj YW is 1444 lbs, with an ADG of 4.26 lbs/day since weaning and he's in the top 10% for his Ribeye Area EPD.

A bull with an interesting maternal pedigree. She came to us from the D Bar C dispersal at Lacombe and raised the 2012 high selling heifer at Pembina Triangle that sold to Dequier Farms. She has hit another home run again with this big brute. A late February calf with an 87lbs BW, he could be the next big thing in calving ease black bulls. Take a long look at this one.

PERKIN LAND AND CATTLE SIMMENTAL

I probably could have featured this bull at the start of our section but he will be easy to find sale day. We decided to flush Doll to Dynamite Black after we have seen a few Dynamite daughters rising to the top of the breed in donor cows. We had also sold her natural Dynamite calf to Jim Murray at our first Mar Mac sale in 2007 for \$7000. Well, this cross has not let us down. This bull is the deepest bodied bull we have and long spined. With Doll and Dynamite, you will get a nice blend of performance and maternal with balanced EPDs and huge scrotal. A true beef bull, with an ADJYW of 1503lbs and a WPA of 4 lbs/day and an ADG of 4.5lbs/day since weaning.

Last year we purchased a flush from Mader Ranches on their Blackgold 110S cow. We flushed her to Hard Rock and look at the result. A real stout, hairy rascal. He is super long and look at his 79 lbs birth weight. We really have been impressed with Hard Rock's calving ease and his EPDs are starting to reflect it. A full sib heifer that Mader Ranches raised sold for \$13,000 at Farmfair last year. *Homozygous Polled by parentage.*

Not very often anymore do you see a Bodybuilder sired bull calf, but this guy has everything we love about him. Easy doing, long spined and deep ribbed, he really is a bull that has a terrific profile. His dam came to us from the Remington dispersal, and she has done an awesome job for her first calf. The cow family goes back to the famous Candice cow. His carcass EPDs are excellent, as he is in the top 2% for Ribeye and Marbling EPD's.

THE PAST YEAR

What year 2013 has been for Mar Mac Farms!
 All cattle were home raised with pure Mar Mac genetics.

Mar Mac is a family ran operation and during the year we require some additional help while we are at shows and events. We could not achieve our goals without the help of our families, friends and neighbors in the Roseland community. A special thanks to everyone who took time out of their busy schedules to support our farm and the Mar Mac Farms & Guests Bull Sale Volume 10!
 Your support is greatly appreciated.
