SPRUCE VIEW ANGUS

◆◆ BLACK ANGUS YEARLING BULL SALE ◆◆

The kind of *Quality*
you can *Count On*

Welcome from SPRUCE VIEW ANGUS

We would like to welcome you to our 25th annual bull sale. With great enthusiasm, passion and confidence we are presenting our highest quality offering of Angus seedstock to date.

After 25 years we have outpouring gratitude and are extremely humbled by your support that has made our program what it is today. We want to continue to provide our customer the right kind of genetics to enhance the productivity and profitability of your herd. Our goal has not changed, providing bulls that produce pounds for the cowman to sell.

We are continually trying to improve our breeding program by making sure each calf crop is better than the last. This sale represents some of the most powerful genetics to date as well as elite calving ease bulls with extra performance. We are extremely excited and confident about these bulls in the offering and are committed to selling you the highest quality of bulls. As always, we are open to answering your questions and hearing your feedback on how we can meet the needs of your program.

We would like to take this opportunity to thank all our customers, family, friends for your continued support. After 25 years you all make this business an absolute honour to be a part of.

As always, the coffee is on feel free to stop in anytime.

A Word From CASTLEROCK MARKETING

On behalf of Castlerock it is indeed a pleasure to be part of the Spruce View Bull Sale, a great set of bulls and best of all an awesome family that roots are steeped in Angus history. Committed to the beef industry and if you know Wayne and Dallas you know that cattle that will grow and perform easily has been their intentions. These cattle will due that and more, calve easily, sustain themselves under regular ranch conditions while maintaining a good disposition. In other words they are good cattle to be around. If you are selling your cattle by the pound Spruce View deserves your consideration if you haven't experienced the benefits these cattle offer. If you are selling your cattle by the pound Spruce View deserves your consideration if you haven't experienced the benefits these cattle offer, there's no better time then the present.

This hands on operation is a family run outfit but is supported by a great set of repeat buyers that have been along for the ride over the last 25 years. Depending on how old you are 25 years might sound like a long time, then those are us that realize how fast time flies. As any cattle breeder purebred or commercial will know is that a cowherd is a constant process of fine tuning and working at things trying to get it the way you want it. If it was easy anybody could do it and be successful at it. Look around where you get your mail, how much has changed over the years businesses have come and gone. It's a real tribute to the workings of the Grant family and the customers that source their bulls here.

Business is straight forward, the handshake is a bond and your satisfaction is a must at Spruce View. As in the past this will be a video sale for your comfort. Bulls will be penned outside the sale barn with the cows close by, all for your convenience! Be sure to stop out prior to sale day to look at the bulls and have a visit with Wayne and Dallas. Should you have any questions regarding the bulls and how they may best serve your needs give Dallas a call or ourselves at Castlerock Marketing, we'd be happy to hear from you!

See you sale day!
Shane Castle

A very stout bull with lots of depth, volume and natural fleshing ability.

TERMS & CONDITIONS

TERMS: The terms of the sale are cash, cheque, or previously arranged financing. Settlement is to be made following the completion of the sale, to the clerks of the sale. Animals will not be released until settlement is made. All monies are in Canadian funds.

DISPUTES: Bidding will be re-opened between the parties involved in a dispute. If there is no advance by either party, the buyer will be the person from which the auctioneer received the last bid. The auctioneer's decision is final in these cases.

ANNOUNCEMENTS: All announcements made from the block will take precedence over any printed material from the catalogue. Therefore buyers should pay close attention for such announcements.

BREEDING GUARANTEE: All cattle are sold as sound and right and sell with a "Responsible Breeder's Guarantee of Satisfaction". In the unlikely event of a dispute, the regular sale terms and conditions, standard with the Canadian Angus Association shall apply.

SOUNDNESS EVALUATION: All bulls will have passed evaluation for physical & reproductive soundness by a veterinarian. All bulls will be semen tested prior to delivery and will have be accompanied, at time of delivery, by a semen certificate that meets or exceeds the CAA standard of 70% .

RISK: Ownership risk to the purchaser commences when the auctioneers hammer falls. Insurance is available sale day.

LIABILITIES: All people attending the sale do so at their own risk. Although every precaution will be made to ensure the safety and protection of both buyer and the livestock, the auctioneer and the sellers accept no responsibility in this matter and disclaim any liability, legal or otherwise, in the event of an accident or loss of property.

DELIVERY: Delivery will take place in the first two weeks of April, where we will do our best to get your your bull(s) as close to you as possible, If you are unable to have your bull delivered by April 20th they can remain at Spruce View where we will continue to develop your bull at a cost of \$3/day and at buyer's risk (insurance suggested). You are required to pick your bull up if you choose this option.

SIGHT UNSEEN: For sight unseen purchases contact Shane Castle or any of the Sale Staff and they will make every attempt to pick a bull that suits your needs. If you are not happy with their selection you are not obligated to take it. To place phone bids contact Shane @ 306-741-7485 Sale Day.

RIGHTS & OBLIGATIONS: The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following the sale constitute a separate transaction and releases the original seller from their obligation.

WHAT IS AN EPD?

Expected Progeny Differences (EPDs) are genetic predictions producers can use when making selection decisions. These values are available on performance animals from breed associations. It is important to understand you cannot compare EPDs between breeds, only within a breed. A buyer is always advised to use more than just the EPDs regardless of accuracy when making purchase decisions.

An Expected Progeny Difference (EPD) is a measure of the genetic merit of an animal using relevant performance and pedigree information. EPDs are expressed in the units of measure. For example, birth weight is expressed in pounds, and rib-eye area is expressed in square inches.

EPDs come from performance data. Producers submit data on their cattle.

From this data, researchers look at the differences between animals raised in the same environment (contemporary groups) and ascertain the portion of that difference that is due to genetics (heritability). Also included in this is how the different traits relate to each other and interact together (correlations). They can then directly compare genetic differences among animals using the pedigree information contained in the CHA and AHA registries. The result is a value that can be directly compared between animals and across environments, an EPD.

EPDs used in this catalogue

Calving Ease EPD (CE) - calculated using birth weight and calving ease score information. Calving ease EPDs represent the ease with which progeny of an animal are born to first calf heifers. The EPD is expressed as a percent probability, with a higher value representing calves with a higher probability of being born unassisted.

Birth Weight EPD (BW) - is an indicator of calving ease. Higher birth weight EPDs usually indicates more calving difficulty.

Weaning Weight EPD (WW) - reflects progeny growth differences up to 205-days.

Yearling Weight EPD (YW) - reflects progeny growth differences through to 365-days.

Milk EPD (Milk) - indicates the ability of a sire's daughters to provide their calves with an environment that encourages growth from birth to weaning, through mothering ability and milk production. This EPD is expressed in the expected difference in pounds of calf at weaning.

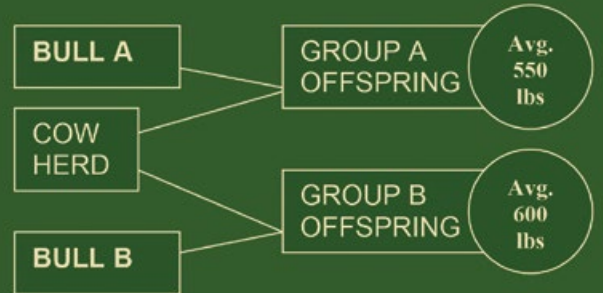

Total Maternal EPD (TM) - also known as Milk + Growth, this EPD combines the milk EPD plus 1/2 the Weaning Weight EPD. It is expressed in pounds of calf weaned at 205-Days and combines the genetics for pre-weaning growth and the influence of the maternal environment on the weaning weight of the daughter's progeny.

EPDs evaluate group averages and offspring's performance. They can not predict individual performance or weights.

For example, if Bull A (weaning weight EPD of +10) and Bull B (WW of +60) were randomly mated with ten similar cows, we would expect the group average weaning weight of Bull A's offspring to be 50 lbs lighter than that of Bull B's (60-10=50).

Calf	A	B
1	500	400
2	510	450
3	520	500
4	530	550
5	540	600
6	560	600
7	570	650
8	580	700
9	590	750
10	600	800
Avg.	550	600

Note that not all calves from Bull B have a higher weaning weight, but the average is 50 lbs higher.

Accuracy - reflects the reliability of the EPD value. High accuracy values (>.80) mean the EPD value is closer to the true breeding value than an EPD value with a lower accuracy (<.20).
