◆◆ BLACK ANGUS YEARLING BULL SALE ◆◆

THE KIND OF QUALITY YOU CAN COUNT ON

At the Ranch | Video sale | Heated sale facility  
**65 Yearling bulls on offer**

# *Welcome from* SPRUCE VIEW ANGUS

Dear Cattleman and Friends,

With great respect we would like to welcome you to our twenty sixth annual bull sale. In an ever-changing market the only constant is quality, and quality has become our main focus. It has never been more important to breed for balance and function in an industry driven by extremes. We truly believe that this is the most solid set of performance bulls we have ever offered for sale, and we are ecstatic for your personal evaluation and feedback of the bulls as we continue to strive to be better.

We understand as seedstock producers that our customers are more than likely paid by the pound and our genetic focus is to provide you with a live calf that has the vigor and exceptional growth to do so.

As always, we encourage you to stop in anytime to view the cattle and please don't hesitate to call. We are always open to answering your questions and hearing your feedback on how we can meet the needs of your program. Once again thank you to all of our customers, family and friends for your continued support. You are what make the business a pleasure to be apart of.

*Wayne and Dallas*

# *A Word From* CASTLEROCK MARKETING

2018 offers a tremendous opportunity at Spruce View and a set of bulls that will stand with any across the land. Deep, stout, long powerful bulls backed by performance and doability. Take note of the cows, Spruce View born and raised outside of a few ET calves. What does this mean? Years and years of breeding and cultivating cow families allowing the cream to rise to the top. The Spruce View herd has long be relished for the extra punch that these Angus cattle will deliver! Selling your calves by the pound, then here is a great place to start as well as capitalizing on the Angus advantage when calving season hits with the extra vigour and thriftiness.

Some new sire groups this year led off by the Cutting Edge sons that are simply standouts for their style, structure, muscle and hair! Resistol, Cash, Pedigree, In Focus, Discovery, International and Seedstock roundup out a new set of sire groups for you to select from that will make a positive impact in many facets of your cowherd.

As always the videos will be available to preview at your leisure, but Wayne and Dallas would rather have you stop by the farm and have a look at the bulls and their dams, coffee is always on!

We look forward to seeing you sale day, should you not be able to make it feel comfortable giving Wayne, Dallas, any of the sales staff our ourselves at Castlerock Marketing to discuss the offering. This service is free and your satisfaction is guaranteed!

See you sale day!

*Shane Castle*

Viking Auction Mart - Cliff Grinde 780.336.6333

### INSURANCE

Stockmens Insurance: Larry Toner | 306.834.7652

### DELIVERY

Delivery will take place in the first two weeks of April, where we will do our best to get your bull(s) as close to you as possible. If you are unable to have your bull delivered by April 20th they can remain at Spruce View where we will continue to develop your bull at a cost of \$3/day and at buyer's risk. Insurance is strongly suggested (an agent will be on site sale day). You are required to pick your bull up if you choose this option.

### VOLUME DISCOUNT

Buy 3 or more bulls and receive 3% off your purchases.  
5% off on 5 bulls or more.

4 km south of Killam, AB on Hwy. #36

Long bodied, good muscled bull out of our Generator sire. The Ten X cattle have always been sale favourites with great customer satisfaction.

## TERMS & CONDITIONS

**TERMS:** The terms of the sale are cash, cheque, or previously arranged financing. Settlement is to be made following the completion of the sale, to the clerks of the sale. Animals will not be released until settlement is made. All monies are in Canadian funds.

**DISPUTES:** Bidding will be re-opened between the parties involved in a dispute. If there is no advance by either party, the buyer will be the person from which the auctioneer received the last bid. The auctioneer's decision is final in these cases.

**ANNOUNCEMENTS:** All announcements made from the block will take precedence over any printed material from the catalogue. Therefore buyers should pay close attention for such announcements.

**BREEDING GUARANTEE:** All cattle are sold as sound and right and sell with a "Responsible Breeder's Guarantee of Satisfaction". In the unlikely event of a dispute, the regular sale terms and conditions, standard with the Canadian Angus Association shall apply.

**SOUNDNESS EVALUATION:** All bulls will have passed evaluation for physical & reproductive soundness by a veterinarian. All bulls will be semen tested prior to delivery and will have be accompanied, at time of delivery, by a semen certificate that meets or exceeds the CAA standard of 70% .

**RISK:** Ownership risk to the purchaser commences when the auctioneers hammer falls. Insurance is available sale day.

**LIABILITIES:** All people attending the sale do so at their own risk. Although every precaution will be made to ensure the safety and protection of both buyer and the livestock, the auctioneer and the sellers accept no responsibility in this matter and disclaim any liability, legal or otherwise, in the event of an accident or loss of property.

**DELIVERY:** Delivery will take place in the first two weeks of April, where we will do our best to get your your bull(s) as close to you as possible, If you are unable to have your bull delivered by April 20th they can remain at Spruce View where we will continue to develop your bull at a cost of \$3/day and at buyer's risk (insurance suggested). You are required to pick your bull up if you choose this option.

**SIGHT UNSEEN:** For sight unseen purchases contact Shane Castle or any of the Sale Staff and they will make every attempt to pick a bull that suits your needs. If you are not happy with their selection you are not obligated to take it. To place phone bids contact Shane @ 306-741-7485 Sale Day.

**RIGHTS & OBLIGATIONS:** The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following the sale constitute a separate transaction and releases the original seller from their obligation.

# WHAT IS AN EPD?

Expected Progeny Differences (EPDs) are genetic predictions producers can use when making selection decisions. These values are available on performance animals from breed associations. It is important to understand you cannot compare EPDs between breeds, only within a breed. A buyer is always advised to use more than just the EPDs regardless of accuracy when making purchase decisions.

An Expected Progeny Difference (EPD) is a measure of the genetic merit of an animal using relevant performance and pedigree information. EPDs are expressed in the units of measure. For example, birth weight is expressed in pounds, and rib-eye area is expressed in square inches.

EPDs come from performance data. Producers submit data on their cattle. From this data, researchers look at the

differences between animals raised in the same environment (contemporary groups) and ascertain the portion of that difference that is due to genetics (heritability). Also included in this is how the different traits relate to each other and interact together (correlations). They can then directly compare genetic differences among animals using the pedigree information contained in the CHA and AHA registries. The result is a value that can be directly compared between animals and across environments, an EPD.

## *EPDs used in this catalogue*

**Calving Ease EPD (CE)** - calculated using birth weight and calving ease score information. Calving ease EPDs represent the ease with which progeny of an animal are born to first calf heifers. The EPD is expressed as a percent probability, with a higher value representing calves with a higher probability of being born unassisted.

**Birth Weight EPD (BW)** - is an indicator of calving ease. Higher birth weight EPDs usually indicates more calving difficulty. Higher BW EPD bulls are typically recommended for cows that have had at least one calf. Body conformation must be taken into account.

**Weaning Weight EPD (WW)** - reflects progeny growth differences up to 205-days.

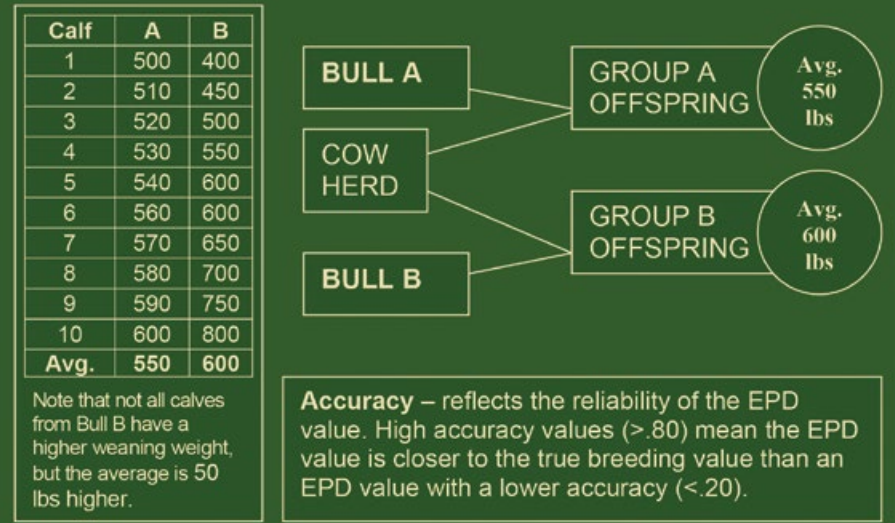

**Yearling Weight EPD (YW)** - reflects progeny growth differences through to 365-days.

**Milk EPD (Milk)** - indicates the ability of a sire's daughters to provide their calves with an environment that encourages growth from birth to weaning, through mothering ability and milk production. This EPD is expressed in the expected difference in pounds of calf at weaning.

**Total Maternal EPD (TM)** - also known as Milk + Growth, this EPD combines the milk EPD plus 1/2 the Weaning Weight EPD. It is expressed in pounds of calf weaned at 205-Days and combines the genetics for pre-weaning growth and the influence of the maternal environment on the weaning weight of the daughter's progeny.

EPDs evaluate group averages and offspring's performance. They can not predict individual performance or weights.

For example, if Bull A (weaning weight EPD of +10) and Bull B (WW of +60) were randomly mated with ten similar cows, we would expect the group average weaning weight of Bull A's offspring to be 50 lbs lighter than that of Bull B's (60-10=50).
