We would like to welcome everybody to our 19th annual bull and select female sale. We are continually striving toward genetic improvement which is an exciting and motivating challenge, as there is always room for improvement. Our breeding program focuses on calving ease and pounds in the fall, as the cattleman sells pounds for a living. We also strive hard to keep the essential traits that make the Angus breed rise to the top, such as fleshing ability, phenotype, thickness, length, good udders, solid feet, superior soundness with a gentle disposition and structure correct from the ground up. We strive for cattle to carry these traits along with performance and do it in an efficient manner.

It was a tough summer last year for many ranchers; rain was hard to come by in many areas, including ours. We weaned two weeks earlier because of grass shortage and the drought impacted our calving gain as well. That being said, our mamas still did an awesome job to hold their calves, with little grass, they way they did.

We are into our 4th generation in the Angus business and going strong. Our cow herd still runs through the Battle River hills as it did 85 years ago. They are strong independent females that get the job done year after year. Our cows raise their calves on grass, salt and mineral. We do not creep our calves, nor do our cows go on any cover crop or swath grazing before weaning.

DLMS will be with us again this year broadcasting live for online bidding again. We will have videos of all the bulls on our Rivercrest Angus website as well as DLMS.

It is truly an honor and privilege to serve all our repeat buyers, local and from afar and to meet and provide for new customers. If you are unable to attend sale day, you can use DLMS online bidding or give myself or one of our sale representatives a call and we will do everything we can to meet your requirements. If you decide he's not for you, we'll take him back.

If you get a chance we'd love for you to come to the ranch and view our offering before the sale.

We bought No Doubt at the 2017 Peak Dot Spring Bull Sale. He was our top pick of the entire selection. No Doubt was the second highest seller of his sire group, topping out at \$37,500. He is powerful in every dimension and demands your attention with his thickness, length, great muscle expression, great foot and the most gentle disposition, all which he passes on with great consistency. His daughters are very shapely with beautiful udders. We just can't get enough of them. We believe he is one of the best curve bending bulls still today, that carries a moderate calving ease package. He produced our all time high seller going to LLB Angus for \$29,000 in 2019.

Stunner is one of the most exciting bulls in the industry today. He produces calves with great muscle shape, depth of body, phenotype and growth all coming in a calving ease package. He is ranked at the top for most maternal traits and backed by a cow with an outstanding production record. Unfortunately he was hurt awhile back and there will be limited offspring in the future.

Rancher is a sale feature that is sure to catch your eye on sale day. He's exactly what you look for in a herd sire, calving ease with performance. His length of spine and depth are impressive with a great foot under him. His dam 11B is one of my best cows with a great udder and foot. She is also the grand dam to the high selling bull in 2020 that went to Hamilton Farms. Definitely an opportunity you don't want to miss out on. Retain 1/3 semen interest Sept 11- 890lbs
