PICK OF THE 2021
HEIFER CALVES

Atlasta Angus 15th Annual Bull Sale

Welcome

It is my pleasure to welcome you to the 15th Atlasta Angus Bull Sale & Seriously Black Select Female Sale.

This summer has seen lots of moisture. As a result, the pastures and amount of hay and feed put up is well above average. The bull calves and cows swath grazed the month of September and creep fed from Mid May until weaning the 5th and 6th of October. Their weaning weights were excellent.

My goal is to provide our customers with cattle that are easy fleshing, have good dispositions combined with top end performance. Day per gains on the cow are of utmost importance; 3 lbs. a day off the mama cow is the goal. Strict attention is paid to the very top end carcass information. I am constantly searching and acquiring new herdbulls and A.I. sires along with our walking herdsires that live up to all of these integral qualities.

This year's sale offering includes 62 of our very top end January & February born coming yearling bulls along with 11 coming 2-year-old bulls. As an added sale feature, we are offering 48 of our very best bred heifers. Once again, we will be selling the pick of the entire 2021 born heifer calves.

An important addition to our sale this year is Nicki Ross @ NRCS, who will be making videos of our cattle available to you any time prior to the sale at NickiRossCattleServices.com and also can be seen at www.DLMS.ca. We have also added Mark Shologan and team from DLMS to offer our customers the online bidding option as well. A special thanks to Megan Bond & Lilian for a doing a great job clipping and to Grant & Lauralee Rolston for the tremendous job picturing the sale offering.

Due to Alberta Health Services and on-going health issues, we will respect all regulations. We care for your well being and safe environment. Judy will not be serving her turkey buffet but a form of lunch will be served.

Please feel free to call or stop by anytime prior to the sale day for viewing and questions.

Brian

Great Grandparents Gerald & Lucille Ohm with the grandkids

Seriously Black Female Sale at 1 pm

immediately followed by the

*15th Annual **Atlasta Angus Bull Sale***

Welcome from OBI Livestock Ltd.

It is our pleasure to be working with the great family at Atlasta Angus this year. I welcome you to the 15th Annual Atlasta Bull Sale & Seriously Black Select Female Sale. Brian & Judy continue to be leaders in the community, so the first thing I would like to talk about is how we all want to run this event, the safest way possible. Please follow the rules set forth by Atlasta Angus. They do want you to come the week before the sale and analyze the cattle if you can do that. Then contact Brian, Mark or Roger and we can help you with your decisions for the sale. The cattle will also be able to be seen this year via video on DLMS. Some new things that all need to know. We are asking for serious buyers to attend the event for space in the barn.

Now about the offering, what a set of bulls this year from the front-end right to the back end, very uniform set with weaning weights about 50 lbs. higher than last year, pastures were good this year. By using top end A.I. sires and purchasing herdbulls that continue to raise very powerful bull calves are the basis of what you will see this year. The bulls were sorted into 3 pens by sire groups primarily with really good bulls in each of the pens.

Little twist this year on the bred heifers, Atlasta Angus are offering their top 48 bred heifers for sale all selected by myself, Brian and Roger. They are a great set of females and you get to choose which one or sweep the ring. If only one gets selected Brian will gladly keep the other in the herd. Great opportunity here from the foundation females at Atlasta Angus.

We have been through the offering many times and sure can assist you if you need, so please do not hesitate to call any member of OBI Livestock Ltd. or Brian directly and we will take care of your needs. See you all December 12 at the farm. I will be there the entire day before the sale to answer your calls or questions.

Mark Holowaychuk

Atlasta Stunner 75H is a bull that a lot of admirers found going through the pens this year. He sure does stand out and his presence shows. He is a well made, good dispositioned herdbull candidate that we are sure proud of. He has loads of hair, lots of bone and walks in the pocket. He is clean fronted with extra length. His dam 106A is a cow we have really liked for a while now, she is fancy fronted, deep bodied and will definitely be a mainstay at the farm. 2 bulls sold commercially and 2 heifers retained in herd. 75G pushed the scales down at 1005 lbs. on Oct 6.

† Indicates at least 1 genetic condition test with a free result

A Word From Fred . . .

Is there anything better than having marbling and performance in the bull you breed your cows to? Commercial cattlemen take heed to the strong genetic characteristics that Brian has bred into his cow herd.

For years I have preached about needing AAA fat cattle in the packing houses. We still need AM but now it's the highest end of AM and Prime. Prime is very much in demand but our percentage at harvest is only in the single digits. Forget about A and AA - there's no sale for it.

We know the genetics are in the bulls to produce Prime. I do research work and some of the bulls harvested grade prime on the rail. It's all in the genetics.

I have seen some of Brian's older cows on the rail and they graded high AM and some had Prime marbling. These are 10 year old cows! The genetics are here!

Another top end bull from our Wendy 4U herd bull maker, 5 premium bulls have already sold in the previous sales to Midland Cattle Co., Bandura Ranches, Coldstream Ranches Ltd., Randy Tooth and John & Beryl Sibbald. Any bull she is mated to results in a top end bull, what a cow! 14H is a powerful Renown son that we think very highly of.

Another bull that caught people's attention on the tours was Atlasta Payweight 37H. 37H is a very proud bull calf with a moderate BW. He is smooth shouldered, long spined with a good foot under him and travels so well. Basin Payweight 1682 progeny are very much in demand this year, Payweight 1682 himself is one of the best footed A.I. bulls in North America and we all talk about correcting foot structure, well the Payweights will do that. His dam 122X is from one of our best cow families, the Wendy's. We believe in this bull and his cow family so much. Talk to Brian or OBI on details.

Atlasta International 90H is a power bull, plain and simple. He is well made, deep-bodied, great muscled with loads of hair and sure will add the weight to you calves. These International progeny sure do add value to calf crops across the land. A bull that should consider a serious look sale day. His dam is a good uddered powerful individual in her own rights. This sire group has a lot of value from the history of their genetics.

Atlasta Prime Cut 82H is in the Second pen of bulls and will be leading off that impressive group. He is an impressive individual with loads of capacity, good haired, lots of middle with a great foot under him. Prime Cut progeny have been in demand at previous year's events and at the U2 Dispersal, the cows were sure a sale highlight with amazing udders. His dam has 3 daughters working in the herd. We would like to work with the new owners and implement 82H into the Atlasta cow herd. Talk to Brian or OBI on details.

SELLING ½ INTEREST & ½ POSSESSION.

Atlasta Angus

Family Fun

EPD Definitions

CE: CALVING EASE DIRECT - the average difference in ease with which a sire's calves will be born when he is bred to first calf heifers. The higher the number the more probability that his calves will be born unassisted.

BW: BIRTH WEIGHT - expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

WW: WEANING WEIGHT - expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires. WW is an indicator of growth from birth to weaning (205 days). The calf's growth during this period is influenced by its own ability to grow plus its mother's maternal abilities.

YW: YEARLING WEIGHT - expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

MILK: MILK - an indicator of milking ability in daughters. It represents the differences in weaning weight of calves due to the amount of milk produced by their mothers. It is expressed in pounds of calf weaned.

Atlasta Angus

Seriously **BLACK** *Select Female Sale*

STARTS AT 1 PM

to be followed immediately by the

BULL SALE

TWO BRED HEIFERS YOUR CHOICE - OR BOTH!

Atlasta Angus has selected A & B heifers to enter the ring at once.

The final bidder has the option to select his choice of the two heifers or can take both at twice the money.

If the final bidder takes just one heifer then the runner up bidder has the choice of taking the other heifer at the same money.

If the other heifer is not selected, she will go back into the Atlasta herd.

U2 Stunner 167G was obtained this past spring at the record breaking U2 Bull Sale. I took a trip down there to view the bulls and found 167G. Thanks Roger and Mark for getting me down there. Now this all fits together now, his dam is a HA Prime Cut 4493 (Sire of our Herdsire, U2 Alberta Prime 208D) daughter with an outstanding udder and was sold to Mexico at their Dispersal Sale. The Stunners we can all see what they do now, check out Lot 1. Stunner 167G has huge numbers as you can clearly see. The coupons inside this impressive set of bred heifers sure will add to them.

Another new herdsire we selected from our good friends, Remittal Farms Inc. Again, Roger told me about this bull that maybe we should take a gander at and as they say the rest is history. He sure did breed well for us. He is a SAV President 6847 son with so many good attributes about him, strides out so well, deep-bodied, good haired and has kept his condition after this summer with the bred heifers. His dam is an Elite cow at the CAA.

Atlasta Answer 241F is out of a dam from Bradley Brown. She had a great career at Atlasta Angus and this bull was her last calf. She had longevity built in and we sold 5 sons and 3 daughters and kept 1 daughter in herd. 241F is a clean fronted, huge calving ease bull with extra length. All 3 bulls will be on display at the sale beside the barn. Gladly take you for a tour of them as well.

Exposed May 14 to July 30 to Remittal F Gladiator 34G.
Due Late January.

We used these heifers' A.I. sire Musgrave Big Sky to bring us some outcross genetics. These two bred's are good looking, clean fronted with some extra length. Their brother, JBS 25H Lot 7 is one of the top WW bulls in the sale with the same physical attributes. Both dams of the bred's are good looking Angus cows; for years giving us top end both heifers and bulls. Two special females with a great future.

Two deep sided, attractive heifers sire by U2 Alberta Prime 208D. All his progeny at Atlasta are front end Weaning Weights and Sale Features! His progeny are exceptional! These heifer's dams are big strong cows with good feet and udders and backed by generations of the very best maternal traits.

LOTS 79 - 81

These six strong females attest to the great job their sire Remitall F International 179C has done here at Atlasta Angus for years. He always gives us attractive, clean fronted, deep volumed females with some extra length combined with good feet and udders. The ultimate package in an Angus cow. Study each heifer dam's genetics – they go back generations here and are backed by some of the greatest sires to walk in out industry.

P.S. Their sire, 179C has also 12 bulls in the sale that averaged over 900 lbs. for weaning.

Over the years, Brookmore Bismarck 19A, no matter what you breed him to, he gives you calves both bulls and females, very moderate BW's and top end WW's. His daughters are all smooth front ended, long sided with very goof feet and udders combined with great dispositions. These four female's dams are top end matrons for years at Atlasta. Final Answer, Connealy Consensus, Traveler 8180 and EXT are in their immediate pedigree. All 4 bred's have the genetics and performance to build your herd around.

Final Answer's combination of low BW's and WW's and growth is testament in his easy fleshing, super attitudes and great uddered daughters. These 3 young ladies will have all these genetics. Atlasta Barbaramere 6G is sired by Harvester and she is a typical female being broody and feminine with a smooth, good looking front end. All four bred's have dams who consistently gives us top end progeny. Each has a very good bull in this year's sale offering.

Atlasta Tina 42A

Dam of Lot 88A & Lot 3 Yearling Bull

Atlasta Miss Stockman 117B

Dam of Lot 89B & Lot 59 Yearling Bull

A.I. sire Resource like his brother Renown gives his progeny style, some extra length and capacity and breed character. His daughters have good feet and udders. 33G's dam has been a solid producer and matron and is still going strong. Stock Lady 112G's sire is a typical Resource son, from Bar-E-L. Like his sire, he produces standout, stylish progeny whose daughters are easy fleshing. Darn solid cattle! Stock Lady 112G is one of our best and the granddam's (Lady Stock 23T) pedigree is in a number of offspring in the sale. Her bull, JBS 77H Lot 18, a Resource son is one of the top WW bulls in our offering. Two very good females with outstanding performance.

LOTS 90 - 92

Remitall Rage 9A female progeny are stylish, smooth shouldered with lots of length and depth along with excellent feet and udders. Throw in great dispositions and you have an outstanding cow. These 3 offspring are no exception! Sire Atlasta Rage 50E, co owned with the Dodd Family at Innisfail, has all the same attributes and has passed them on in these 3 very good girls. JBS 137G's dam was a past high selling heifer and Pride 14G's dam has one the best bulls in the sale, a Payweight son, Lot 12. A top end sire group whose young dams have done an outstanding job. Rage 50E has an outstanding son, JBS 22H Lot 54 in the offering as well.

Atlasta Angus

These two fancy, stylish heifers' sire Remitall F Crossfire 89E was purchased for his calving ease and performance. He hasn't disappointed with either, giving us some solid young females and top WW bulls, like JBS 48H, Lot 52 and JBS 59H, Lot 53 in this year's sale. Both dams of the 2 heifers have maternal pedigrees with superior influence in our program, BBAR Monogram 167F and Sitz Emma 283.

A.I. Sire RB Tour Of Duty and Bar-E-L Rebel Pride was purchased to bring some outcross calving ease, performance and phenotype to Atlasta. Both sires have given us stylish, clean fronted; both heifers and bulls with some extra length and depth. All 4 heifer's dams bottom side pedigrees are stacked with consistent top producing cow families. Atlasta Lass 40S 110G came from the Chico herd on the bottom side. Wendy 124G's grandam, Atlasta Wendy 4U has produced 5 top selling bulls in our past sales and has another good one, JBS 14H, Lot 4 in this year's event.

Lazy E Fortitude 876C was a top selling 2-year-old bull purchased for his outcross pedigree, calving ease and good disposition. His progeny both bulls and females are stylish and structurally sound. These 4 bred's dams are very top end young cows with very good feet, udders and attitudes. Their maternal side pedigrees both top and bottom have breed legends like Sitz Alliance, Traveler 8180, Final Answer, Mytty In Focus, Pine Drive and Connealy Consensus in their direct pedigrees. Solid young ladies with solid backgrounds leads to strong futures!

Terms & Conditions

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

ALL CATTLE ARE SOLD: Subject to such tests as required for export under regulations of Agriculture and Agri-Food Canada / Canadian Food Inspection Agency.

BREEDING GUARANTEE: All cattle are sound and sold with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions, standard with the Canadian Aberdeen Angus Association shall apply.

HOLDING AND SHIPMENTS: Approximately one week is required for export transfers and other documents to be processed. Export animals will be held at no charge and under excellent care. Joint export shipping arrangements to attain minimum shipping cost will gladly be made by the sale management if instructions to that effect are provided to clerk of the sale when settlement is made.

MAIL BIDS: May be entrusted in complete confidence to any of the Sale Staff listed or to the Sale Managers.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the clerk's desk from the appointed representatives on sale day.

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the Sale on Sale Day. U.S. Funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received prior to departure times.

ALL PERSONS who attend the Sale do so at their own risk, and the Owners, Sale Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

*Please bring this catalog with you
when viewing the cattle
or attending the sale*

*A sincere Thank You
for your interest*
