At the Farm - Sylvan Lake - Alberta

58 YEARLING BULLS
7 TWO-YEAR-OLD BULLS
22 BRED HEIFERS
PICK OF THE 2022
HEIFER CALVES

Welcome

It is my pleasure to welcome you to the 16th Annual Atlasta Angus Bull Sale & Seriously Black Select Female Sale.

My goal is always to provide a service to you, our customers an opportunity to acquire cattle that have the very top end performance, are structurally sound, are easy fleshing and have the best dispositions we can find. Day per gains off the mama cow are of the utmost importance. Also, strict attention is paid to the genetics in every herd and A.I. sire to give us the best carcass data that is available.

This year's offering includes 58 of our very top end January and February coming yearling bulls, 7 coming two-year-olds and 22 of our top end bred heifers. Once again as an added feature, we will be offering the pick of the 2022 heifer calf crop.

Once again, this year, Nicki Ross will be videoing the offering which is available anytime prior to sale day at NickiRossCattleServices.com and also can be seen at www.DLMS.ca. Mark Shologan and team will be available to offer you online bidding as well. A very special thank you to Megan Bond and her mother Lillian for the great job of preparing the cattle for sale day. Also, for the past 20 years Grant & Lauralee Rolston have provided an incredible service of doing photography for our sales. They are retiring and the cattle industry is going to really miss their expertise and professionalism. Thank you very much Grant & Lauralee for your friendship!

Last year, due to our health regulations, we had dozens of customers and friends the couple of weeks prior to sale day visit the farm and view our offering. Please feel free to call and do the same this year. Due to the ongoing health issues, we will respect all regulations. We sincerely care for your well being.

Look forward to sale day!!

Brian

The Atlasta Angus Photo Crew

*Seriously Black Female Sale at 1 pm
 immediately followed by the
 16th Annual **Atlasta Angus Bull Sale***

Welcome from OBI Livestock Ltd.

It is our pleasure to be working with the great family at Atlasta Angus this year. I welcome you to the 16th Annual Atlasta Bull Sale & Seriously Black Select Female Sale.

What a set of bulls this year from the front-end right to the back end, very uniform set by using top end A.I. sires and purchasing herdbulls that continue to raise very powerful bull calves are the basis of what you will see this year. The bulls were sorted into 3 pens by sire groups primarily with really good bulls in each of the pens. There are also 7 two-year-old bulls on offer to service more cows for you. A very good selection of bulls this year at Atlasta Angus.

Atlasta Angus are offering 22 bred heifers for sale all selected by myself, Brian and Roger. They are a great set of females and you get to choose which one or sweep the ring. If only one gets selected Brian will gladly keep the other in the herd. Great opportunity here from the foundation females at Atlasta Angus. Last year's bred heifers sold really well and were demanded by you and this year won't be much different with the quality of these young females.

We have been through the offering many times and sure can assist you if you need, so please do not hesitate to call any member of OBI Livestock Ltd. or Brian directly and we will take care of your needs. See you all December 11 at the farm. I will be there the entire day before the sale to answer your calls or questions.

Mark Holowaychuk
 OBI Livestock Ltd.

Mark Holowaychuk

This very powerful son of S A V Resource 1441 will sure catch eyes sale day. He has so much muscle and mass with great movement in the pens, he carries himself so well. His dam is one of our best females at the farm. Atlasta Blackcap 45B has produced a high seller to Bryce Medin, JBS 46G, a bull we used in our program as well. Last year, JBS 90H sold to the Riverside Colony at Fort Macleod and he was quite the bull as well. 14J himself follows right in the footsteps of those brothers. His weight was 1010 lbs. on October 8.

Our only S A V International 2020 son in the sale this year. We have huge success with this lineage in the bull and heifer divisions. This guy WAS a nickel under 1000 lbs. on October 8. 8J is a deep made, hairy coated bull with extra size and power, what we like in herd bulls. Two maternal brothers have sold to Doug Crawford from Lacombe in the past 4 years. He knows the good ones. This bull is one to take a serious gander at.

*Open House Friday afternoon, December 10

Atlasta Colossal 106J is a bull we have liked from the early summer. He carries himself so well with having extra muscle and thick topped with extra bone as well. 67A is very good cow going back to SAV Net Worth 4200 and had a top end bull, Atlasta Stunner 85H sold to Doug Crawford in last year's sale. This is a new sire group to our repeat customers, Musgrave 316 Colossal 137. He is a sire that a lot of folks have been using and I can see why. These Colossal's calves are clean fronted with extra power built in.

SELLING 1/2 INTEREST & 1/2 POSSESSION.

EPD Definitions

CE: CALVING EASE DIRECT - the average difference in ease with which a sire's calves will be born when he is bred to first calf heifers. The higher the number the more probability that his calves will be born unassisted.

BW: BIRTH WEIGHT - expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

WW: WEANING WEIGHT - expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires. WW is an indicator of growth from birth to weaning (205 days). The calf's growth during this period is influenced by its own ability to grow plus its mother's maternal abilities.

YW: YEARLING WEIGHT - expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

MILK: MILK - an indicator of milking ability in daughters. It represents the differences in weaning weight of calves due to the amount of milk produced by their mothers. It is expressed in pounds of calf weaned.

S A V Renovation 6822 sire group are sure powerful bulls with extra depth, middle and hair coats. They continue to improve every day at the farm. 78J was the second heaviest bull on October 8 at 1010 lbs. 4Z has not missed yet to date with 8 calves in a row; longevity-built in. 78J is a fancy made bull that stands out in the bull pen.

A Word From Fred...

I said last year that just AAA is no longer good enough. Too many high end steak houses want prime and high end AAA like CAB or Sterling Silver. It's Prime Time! In many stores prime grade rib eye steak can fetch from \$50 to \$100! And you have to take it home and cook it!

There are specific lots of cattle harvested that grade prime and high AAA with little or no AA or A. There are very few A's any more. Primals from white fat cows that have been fed grain will sell better than poorly marbled youthful animals.

This is how it works. When we are grading on the line, if the 1st few carcasses in the lot grade A then there will be no Prime. If at the start of the lot there are Prime grade carcasses, there will be no A's and very few AA's.

Brian's commercial customers give him feedback that their calves, bred to his bulls, grade up to 12% prime with the rest in the high AAA's. These are the results you want from the bloodlines you are using. The blood lines you need are here today!

Fred W. Taylor
 Taylor Made Research

Brian the horse whisperer

Scrappy. Best farm dog. Ever.

We unfortunately lost the U2 Alberda Prime 208D and he did us such a tremendous job, we had to find a replacement for our herd. 67J is that bull; he is soggy, hairy and moves out so well and is easily found in the bull pen. He is built just like his father with extra length and very clean fronted. He has herdbull written all over him.

SELLING 1/2 INTEREST & 1/2 POSSESSION.

U2 Alberta Prime 208D SIRE LOTS 21-26

Atlasta Angus

16th Annual Bull Sale

Seriously **BLACK** Select Female Sale

STARTS 1 PM
to be followed
immediately by the
BULL SALE

TWO BRED HEIFERS - YOUR CHOICE OR BOTH!

Atlasta Angus has selected A & B heifers to enter the ring at once. The final bidder has the option to select his choice of the two heifers or can take both at twice the money. If the final bidder takes just one heifer then the runner up bidder has the choice of taking the other heifer at the same money. If the other heifer is not selected, she will go back into the Atlasta herd.

U2 Stunner 167G

U2 Stunner 167G was obtained at the U2 Bull Sale 2020. I took a trip down there to view the bulls and found 167G. Now this all fits together, his dam is a HA Prime Cut 4493 (sire of our herdsire, U2 Alberta Prime 208D) daughter with an outstanding udder and was sold to Mexico at their Dispersal Sale. The Stunners we can all see what they do now. The coupons inside this impressive set of bred heifers sure will add to them.

A new herdsire we purchased from the mighty Remital herd. Hextor 72H is another Stunner bull that we used on our heifers this year. This guy had a 79 lb. BW while having an Adj. WW of 903, quite the spread here. Ranks in the Top 2% for WW and YW. This guy strides out so well with extra length and has a great disposition.

Payweight 37H was a top selling bull in last year's sale going to Nicola Ranch. We kept 1/2 interest in him to use for a few months before heading to BC. We really liked the Payweight 1682 bulls in last year's event and knew we should use him. Payweight 1682 sires some of the best footed progeny around with a lot of depth, wide tops and overall capacity.

Exposed March 30 to August 15 to Remittal F Hextor 72H. Due Late January.

Two stylish, front end bred heifers from easy fleshing cow families. Both cows have consistently produced both bulls & heifers with our best in past sales. Basin Payweight 1682 progeny are clean fronted, long spined with lots of depth and volume combined with plenty of eye appeal. Two young females with unlimited potential and whose popular sire is a performance leader and changer for adding muscle, substance and fleshing ability.

SAV International 2020 progeny all have outstanding performance and eye appeal combined with excellent feet & udders. Both dams consistently wean off top end, both bulls and heifers. The sire International 2020 has a leadoff bull JBS 8J, Lot 2 in this year's sale. Two very well bred heifers with proven genetics with unlimited potential.

Exposed March 30 to May 5 to Atlasta Payweight 37H. Exposed May 6 to August 15 to Atlasta Answer 241F. Due Mid January.

The past couple years, we have used Musgrave Stunner with great success at Atlasta. His progeny are the total package. He gives stylish, good looking, thick made cattle with extra bone and added extension along with elite calving ease. Top of the charts weaning weights and day per gains off the mama cows are the norm. All 4 dams are solid, reliable producers at Atlasta Angus with great udders and foot quality. SAV Final Answer, Leachman Right Time & EXT are in their direct pedigrees giving these four females some very proven, powerful maternal genetics. All 4 of these bred heifers were serviced by Atlasta Payweight 37H, a bull we sold Half Interest In to Nicola Ranch in BC.

The sire of Barbara 68H, SAV Resource 1441 leaves both bulls and females with extra length and capacity with plenty breed character. The females are all top end cows with great feet & udders. Her dam Barbara 134W goes back generations at Atlasta and is still going strong. HF Consensus 235Y over the years is an elite, top producing herdsire at Atlasta. Everyone of his daughters have great attitudes, are easy fleshing with some extra depth and length combined with great udders and feet. The total package in an Angus Cow! Check out all 3 HF Consensus 235Y daughters, pedigrees on the bottom side; 110H & 9H both have Barbara 33H in their pedigree, one of the greatest ever to walk at Atlasta Angus. 28H also belongs to the Barbara cow family. Check out whose dam (33H Barbara) is also in 68H's direct pedigree. One hell of a herd matron!

Exposed March 30 to May 5 to Atlasta Payweight 37H. Exposed May 6 to August 15 to Atlasta Answer 241F. Due Late January.

Brookmore Bismarck 19A progeny, both bull and females are all easy fleshing, very moderate BW's that are all at the top of the page with weaning weights and day per gain. His daughters are smooth fronted, long sided with great feet and udders and have great attitudes. These two will carry on these characteristics. Both dams are rock solid cows with good feet and udders. These solid 2 females have the genetics top & bottom and performance to build your herd around.

Two good looking, moderate framed females whose dams and grandams are cows you build your herd around. Both young females are clean fronted with some added depth and volume. Both sires Atlasta Rage 50E and Remitall Crossfire 89C leave easy fleshing progeny with some added depth and volume, great attitudes and sound feet and udders in a moderate frame. Two solid young cows with lot of promise and potential.

[PEDIGREE ESTIMATED EPDs]

Exposed March 30 to August 15 to Remitall F Hextor 72H. Due Mid January.

We used these to attractive young females A.I. sire, SAV Ten Speed 3022 to add some phenotype combined with his top end calving ease and performance. He sure didn't disappoint in these two solid young heifers. Their dams, Barbara Perfection 74B & Wendy 182C are solid, young, easy fleshing cows with very good feet and udders along with great dispositions. Their dams and grandams are sired by breed legends, Sitz Alliance 6595 and Sitz Traveler 8180. 7H's pedigree traces back to Wendy 1D, maybe the best matron Atlasta has seen. Two can't miss heifers with lots of potential and a solid future.

Terms & Conditions

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

ALL CATTLE ARE SOLD: Subject to such tests as required for export under regulations of Agriculture and Agri-Food Canada / Canadian Food Inspection Agency.

BREEDING GUARANTEE: All cattle are sound and sold with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions, standard with the Canadian Aberdeen Angus Association shall apply.

HOLDING AND SHIPMENTS: Approximately one week is required for export transfers and other documents to be processed. Export animals will be held at no charge and under excellent care. Joint export shipping arrangements to attain minimum shipping cost will gladly be made by the sale management if instructions to that effect are provided to clerk of the sale when settlement is made.

MAIL BIDS: May be entrusted in complete confidence to any of the Sale Staff listed or to the Sale Managers.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the clerk's desk from the appointed representatives on sale day.

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the Sale on Sale Day. U.S. Funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received prior to departure times.

ALL PERSONS who attend the Sale do so at their own risk, and the Owners, Sale Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

*Please bring this catalog with you
