Atlasta Angus

13th Annual Bull Sale

Welcome from Atlasta Angus

It is my sincere pleasure to welcome you to our 13th Annual Atlasta Bull Sale and Seriously Black Select Female Sale.

The past year has seen all levels of uncertainty in our weather, from extended periods of extreme cold and snow to below levels of moisture for the pastures and crop land. Surprisingly all the cattle summered well with the help of a lot of extra acres of grass. The weaning weights were darn good considering the lack of rain. I guess it proves correct what great old friends and cattlemen always told me; cattle always do better on hard grass!

My goal never changes and I am never satisfied with our genetics. Every A.I. sire and walking herdsire at Atlasta must have top end performance combined with day per gains and weaning weights that are comparable to the top producers on our continent. Calving ease is a must! Countless hours are spent on cows and sires who have top end carcass numbers. This is a priority when purchasing new herd sires and A.I. bulls. I consider every customer to be a partner and feel the responsibility to supply them with this information.

Thank you to Tannas Ranches for adding a group of their top-end bred heifers to our sale offering.

A very special thank you to Megan Bond and her fitting crew in preparing the cattle for our sale. Once again, Grant and Lauralee Rolston did a great job with our pictures and Jan Lee with the catalog.

Feel free to stop by the farm or call with any questions on the cattle in the offering. Join us Friday December 7 for viewing and hospitality and Judy's special smoked turkey dinner prior to Saturday's sale. Look forward to seeing you then!

Welcome from OBI Livestock Ltd.

It is our pleasure to be working with the great family at Atlasta Angus this year. I welcome you to the 13th Annual Atlasta Bull Sale & Seriously Black Select Female Sale. Brian & Judy continue to be a leading seedstock producer in the Angus Industry. Their commitment to purchase new genetics for their program for the purpose of their bull customers for unique pedigrees for their repeat customers.

This year the bulls in the pens are a very uniform set with good hair coats, feet and overall ability to stride out correctly; they are built for longevity. There is a number of different sire groups for your appraisal as Atlasta do believe in using top end A.I. sires as well as a very strong herd bull battery walking the pastures. Brian is very proud of his herd and knows each cow or bull immediately when visiting with him. These cows make the Atlasta Angus program a top-notch operation.

The bred heifers offered are some of the best across the land and you get to choose either lot offered and they are paired up by sire groups. The cow families here are strong and it shows with these future front end bred heifers. Tannas Ranches, Luke, Ceanna, Mark & Ingrid Tannas also have 10 top end bred heifers coming for your appraisal.

We have been through the offering many times and sure can assist you if you need, so please do not hesitate to call any member of OBI Livestock Ltd., any of the sales staff or Brian directly and we will take care of your needs. See you all December 8 at the farm.

Mark Holowaychuk

Atlasta Resource 15F has a moderate BW with an impressive 816 Adj. 205 Weight. He really was a favorite for a long time at home and was always easy to find in the pens and never forgotten. He already carries himself like a herdbull you want to obtain. Great footed, well muscled and packed full of red meat. Now the kicker, the dam is Atlasta Wendy 4U; she has been on the cover of the catalog in the past and is one of our best cows at the farm. Maternal brothers to John & Beryl Sibbald, Randy Tooth, Coldstream Ranch Ltd. and a herdsire to Bandura Ranches (Atlasta RFA 209T 136C) in our 2015 Sale. 15F is a definite herdsire candidate!

To **register** visit our web site www.vjvauction.com & click the "Purebred Sales" tab on the VJV Ponoka page.

For any questions concerning online bidding
Call Craig Jacklin (403) 783-1453

A Word From Fred . . .

In the 2014 Atlasta sale catalogue I talked about the price of beef at retail being so high. It has stayed there and is even higher just as we said 4 years ago. Rib eye O x O is \$30.00 per kg!

In early spring this year our marbling grade dropped off so much that AAA and Branded programs could not be filled! Some days were like 20 years ago with the majority of carcasses grading A or AA. I'm sure the long cold winter had something to do with it. My belief is that the marbling in the meat is burned up for energy to keep warm.

We have purebred producers shipping unsold bulls in mid summer that are grading AAA and prime. That used to be unheard of with virgin bulls. Please don't keep them around home too long and get an E grade for being too staggy - it is a big discount on selling price!

Talk to Brian about his genetics and the marbling ability he has in his cows!

Atlasta Unanimous 4F has continued to excel over the summer and into the fall months. He is a smooth shouldered, good footed, clean sheathed and overall complete bull. His sire was obtained from the good folks at Pedersen Livestock and he has not disappointed us in his short time with us. His dam goes back to another Remington Right Time 124R daughter (Just like the Lot 1 bull does). 163B has already produced a daughter to the Bradfords at Little Valley Angus. 4F carries himself so well in the pens and will attract a lot of interest.

Atlasta Rage 94F is a power bull with explosive muscle throughout his body but still is a clean fronted bull. He carries himself so well; good footed bull with loads of capacity that has a lot of potential for his new owner. Remitall F Rage 9A has been a consistent herdsire at Atlasta Angus along with all of the co-owners. 126U has had 3 daughters sell, one a top end female to Black Creek Cattle Co. in the 2016 Sale. Two bulls sold commercially. She knows how to raise the good ones and traces back to 57H who was an Elite Dam.

EPD Definitions

BW: Birth Weight - expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

WW: Weaning Weight - expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires. WW is an indicator of growth from birth to weaning (205 days). The calf's growth during this period is influenced by its own ability to grow plus its mother's maternal abilities.

YW: Yearling Weight - expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

MILK: Milk - is an indicator of milking ability in daughters. It represents the differences in weaning weight of calves due to the amount of milk produced by their mothers. It is expressed in pounds of calf weaned.

TM: Total Maternal - is a combination of the weaning weight and milk EPDs. It is calculated as: $1/2 \text{ WW EPD} + \text{Milk EPD} = \text{TM}$. This EPD represents the differences in weaning weights between calves due to mothering and milking ability of their dams.

CE: Calving Ease Direct - the average difference in ease with which a sire's calves will be born when he is bred to first calf heifers. The higher the number the more probability that his calves will be born unassisted.

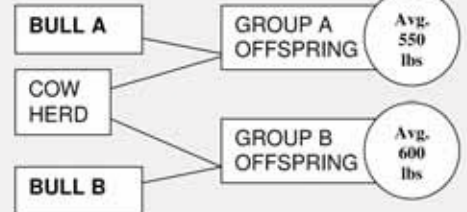

MCE: Maternal Calving Ease - is expressed as a difference in percentage of unassisted births with a higher value indicating greater probability of unassisted births in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

EPDs are an indication of how an animal's calves will perform on average compared to another animal's calves.

For example, if Bull A (weaning weight EPD of +10) and Bull B (WW of +60) were randomly mated with ten similar cows, we would expect the group average weaning weight of Bull A's offspring to be 50 lbs lighter than that of Bull B's (60-10=50).

Calf	A	B
1	500	400
2	510	450
3	520	500
4	530	550
5	540	600
6	560	600
7	570	650
8	580	700
9	590	750
10	600	800
Avg.	550	600

Note that not all calves from Bull B have a higher weaning weight, but the average is 50 lbs higher.

Average Black EPDs for all calves born in 2018

Atlasta Prime Cut 23F is another top end herdsire candidate out of another new sire group at Atlasta Angus. U2 Alberta Prime 208D is a bull we obtained from the U2 Ranch Ltd. at Coaldale, AB. The HA Prime Cut 4493 offering that day was very well received and we knew we had to have one. 23F carries a lot of muscle, and has a lot of shape throughout his make. He strides very well in the pens and is remembered by all who has seen him. His dam is a very good cow from the Barbara cow family that is one of our best at the farm.

ALL COMING TWO-YEAR-OLD BULLS & FEMALES TO BE PICKED UP AFTER THE SALE

Yearling bulls may be left until Feb. 15/2019
 but if you take them right after the sale
 \$100 per bull will be deducted from your invoice.

Terms for Yearling Bulls

50% Down Sale Day
 50% February 15, 2019

Buyer must insure all bulls left at Atlasta

\$2.50 per day after February 15

Please bring this catalog with you to the sale

Two Bred Heifers - Your Choice - or Both!

Atlasta Angus & Tannas Ranches have selected A & B heifers to enter the ring at once.

The final bidder has the option to select his choice of the two heifers or he can take both at twice the money.

If the final bidder takes just one heifer then the runner up bidder has the choice of taking the other heifer at the same money.

If the other heifer is not selected, she will go back into her respective herd.

Two front pasture, high end, stylish females whose dam's BB 34S & Blackcap 51T immediate pedigrees have breed legends: Connealy Dateline, DHD Traveler 6807, TC Freedom, Stockman 365 & Oscar 711. For years both 34S and 51T have weaned off our very best. Their sire SAV International leaves progeny with outstanding overall performance and eye appeal combines with excellent udders & feet. These bred's have unlimited potential.

Lot 71A - Exposed to Atlasta The Answer 4E from April 4 to April 30; then exposed to Pedersen Divided 314D from April 30 to June 5; then exposed to Lazy E Fortitude 876C June 5 to Aug. 10. Due Mid-Late Jan.

Lot 71B - Exposed to Atlasta The Answer 4E from April 4 to April 30; then exposed to Pedersen Divided 314D from April 30 to Aug. 10. Due Mid-Late Jan.

A pair of standouts since birth, their sire HF Consensus 235Y consistently sires top end, picture perfect Angus cows with great dispositions and udders. His sire group of bull calves are at the top of our breed in day per gain and weaning weights and are sale features every year. Both dams are top end producers every year! Two young females with unlimited potential.

Lot 72A - Exposed to Bar-E-L Rebel Pride 103E (Seedstock Son) from April 4 to June 5; then exposed to Lazy E Fortitude 876C June 5 to Aug. 10. Due Late Jan.

Lot 72B - Exposed to Remital F Crossfire 89E from April 4 to Aug. 10. Due Late Jan.

Both of these bred heifers descend over ten generations of cow families. Breed legends; B/R New Design 036, VDAR New Trend 315, Connealy Dateline, Oscar 711, Vermilion Dateline, TC Stockman 365 & Premier Sunrise are in their immediate pedigree. Fertility, calving ease and performance are bred into these fancy daughters of Sitz Upward 307R. He always gives you progeny with some extra length and frame, good udders and feet combined with lots of eye appeal. 68E and 74E have tremendous futures.

Lot 73A - Exposed to Atlasta Rage 50E from April 4 to April 30; then exposed from April 30 to June 5 to Pedersen Divided 314D; then exposed from June 5 to Aug. 10 to Lazy E Fortitude 876C. Due Late Jan.

Lot 73B - Exposed to Atlasta Rage 50E from April 4 to April 30; then exposed from April 30 to June 5 to Pedersen Divided 314D; then exposed from June 5 to Aug. 10 to Lazy E Fortitude 876C. Due Early Feb.

Here are two very good direct daughters of one of the greatest sires in our industry, SAV Final Answer 0035. His progeny gives you calving ease and performance along with great dispositions. Excellent feet and udders in his females are a given. A.I. him to your heifers or any cow and he will give you something special. Note 63E's dam's pedigree; she is one of a handful of Bon View New Design 1407 still walking and is one good cow.

Lot 74A - Exposed to Bar-E-L Rebel Pride 103E (Seedstock Son) from April 4 to June 5; then exposed to Lazy E Fortitude 876C June 5 to Aug. 10. Due Late Jan. - Early Feb.

Lot 74B - Exposed to Bar-E-L Rebel Pride 103E (Seedstock Son) from April 4 to June 5; then exposed to Lazy E Fortitude 876C June 5 to Aug. 10. Due Mid Jan.

[PE: Pedigree Estimate]

Both of these are clean fronted, deep volume with some extra length sired by the very popular SAV Resource 1441 who is known for leaving progeny with superb structure and eye appeal. These two special young cows are no exception. Both dams are consistent; very top end brood matrons who progeny both male and female are sale features year after year.

Lot 75A - Exposed to Atlasta The Answer 4E from April 4 to April 30; then exposed from April 30 to June 5 to Pedersen Divided 314D; then exposed from June 5 to Aug. 10 to Lazy E Fortitude 876C. Due Late Feb.

Lot 75B - Exposed to Atlasta The Answer 4E from April 4 to April 30; then exposed from April 30 to June 5 to Pedersen Divided 314D; then exposed from June 5 to Aug. 10 to Lazy E Fortitude 876C. Due Early Feb.

SAV Angus Valley 1867 progeny give you extra style and eye appeal, along with added length and body mass. Both dams are solid consistent producers at Atlasta Angus and are still going strong. Both are picture perfect Angus cows with very good feet and udders. Tons of performance, both top and bottom in the pedigrees give these attractive females a head start to a bright future!

Lot 76A - Exposed to Remital F Crossfire 89E from April 4 to Aug. 10. Due Late Jan.

Lot 76B - Exposed to Remital F Crossfire 89E from April 4 to Aug. 10. Due Late Jan - Early Feb.

Remitall F Rage 9A consistently leaves progeny that are clean fronted, long sided with some extra depth along with good feet and udders. Combine these attributes with eye appeal and easy fleshing ability – you have a heck of a cow! His sons are always sale features. Both dams, 60X and 34R are for years two of our best; combining calving ease, performance and strong carcass numbers.

Lot 77A - Exposed to Remitall F Crossfire 89E from April 4 to Aug. 10. Due Mid - Late Jan.

Lot 77B - Exposed to Remitall F Crossfire 89E from April 4 to Aug. 10. Due Mid - Late Jan.

Two attractive, moderately framed females sired by our Bar-E-L Celebrity 60C; a son of SAV Resource 1441. He is renowned for his carcass merit and natural fleshing ability in a strong maternal package which makes superb brood cows with high quality udders and abundant milk. Both dams are excellent young brood cows, backed by generations of performance on both top and bottom genetics.

Lot 78A - Exposed to Bar-E-L Rebel Pride 103E (Seedstock Son) from April 4 to June 5; then exposed to Pedersen Divided 314D June 5 to Aug. 10. Due Late Jan.

Lot 78B - Exposed to Bar-E-L Rebel Pride 103E (Seedstock Son) from April 4 to June 5; then exposed to Pedersen Divided 314D June 5 to Aug. 10. Due Late Jan.

This pair of daughters of Lazy E Scotty 735B have some added volume and length. We purchased him from Jim for an added dose of performance and a different twist for lineage. His females all have good disposition and feet; bull calves are the top in weaning weights. Two well put together eye appealing breds. Note 152E's dam, Atlasta Barbara 93Z is the dam of Lot 21 Feature bull.

These RB Tour of Duty 177 daughters have some extra length and depth combined with plenty of style and eye appeal. 15E's dam is a clean fronted, deep volume matron with very good udder and feet and a great disposition. 22E's dam is a solid young cow whose mother 114M is one of the best cows ever to walk at Atlasta. Powerful, maternal genetics give these two a head start to a darn good future. Can't miss females.

Lot 80A - Exposed to Atlasta Rage 50E from April 4 to April 30; then exposed from April 30 to June 5 to Pedersen Divided 314D; then exposed from June 5 to Aug. 10 to Lazy E Fortitude 876C. Due Mid Jan.

We are once again very excited to be a part of the Seriously Black Female Sale held at Atlasta Angus in conjunction with their bull sale.

This year's offering comes right from the top of our pens and primarily trace back to the Brookmore herd. We have used A.I. sires to enhance the marketability of our herd while using very good herdsires we have purchased or have raised. We are very confident in any of these bred heifers offered for your appraisal. Our herd continues to involve in to a hard-working cow herd raised in the foothills. With the great cow herd already and the high level of herdbulls walking the herd, the product will speak for itself.

We would like to thank Brian and family for this opportunity to offer our genetics in this year's sale. If you have any questions on the offering, please feel free to call us or come to the farm to see the bred heifers at Water Valley or view the cattle at Atlasta Angus the Friday before the sale.

10E is a heifer that was a standout calf right from birth. She never stopped performing and as you can see, she has great depth and is bred to our Bank Note son that topped our sale last year. She is very quiet and loves when she gets that attention. Should calve early February 1.

5E is a Double Vision daughter from a home raised heifer has that large frame we like to get from Double Vision cows. We have no doubt that she will perform as her mother 32C is for us. She is safe in calf to Fortitude due early January.

Lot 82A - A.I. on April 12 to Premier Sixmile Hasson Insight. Exposed April 23 to June 6 to Tannas Bank Note 69E. Due Early Feb.

Lot 82B - A.I. on April 8 to PA Fortitude 2500. Exposed April 26 to June 6 to Tannas Kudos 60E. Safe to A.I. Date.

48E is from our TomBoy bull and she is another heifer who likes some attention. Like all TomBoy's she has that deep mid section that puts these extra pounds on the calves. Her dam, a Crowfoot cow, has a bull calf in our bull pen this year. We pasture bred her to Tannas Kudos 40E (a KR Status 4267 son) and should calve mid February according to the ultrasound.

236E - Like the Tom Boy calves our Caliente calves are deep bodied and will add on those extra pounds. She is also pasture bred to Kudos and should calve mid February.

Lot 83A - Exposed April 26 to June 6 to Tannas Kudos 40E. Due Mid Feb.

Lot 83B - Exposed April 26 to June 6 to Tannas Kudos 40E. Due Mid Feb.

Both these heifers were products of 1st calf heifers both have long midsections and good feet. To add extra assurance, we bred 38E (Ten Speed daughter) back to Fortitude and should be safe to AI for early January. 33E is a Fortitude daughter we pasture bred to our Tom Boy bull from April 20th to June 6th. Should calve early March. This should give her calf length and depth as well as easy calving traits from both the dam and the sire.

Lot 84A - A.I. on April 7 to South Shadow 6Y TomBoy 130B. Exposed April 26 to June 6 to South Shadow 6Y TomBoy 130B. Due Early March.

Lot 84B - A.I. on April 7 to PA Fortitude 2500. Exposed April 26 to June 6 to Tannas Bank Note 69E. Safe to A.I. Date.

95E is a daughter of our Samcro bull that is our most consistent easy calving bull for heifers. He has also produced our high selling sire group in our past sales. We bred her to our TomBoy bull, another easy calver that should add some extra depth and you will want to keep her calf in your herd if it is a heifer. She should calve late January.

151E is the first daughter of our Premier SixMile Hasson Insight herdsire to be offered for sale. She is from a cow we purchased as a heifer from South Shadow Angus. The dam is a moderate framed cow with lots of eye appeal. I know this heifer will only keep improving and have the great maternal traits from her sire and dam. Bred to TomBoy, we are sure another keeper if a heifer. She should calve mid February.

Lot 85A - A.I. on April 20 to South Shadow 6Y TomBoy 130B. Exposed April 26 to June 6 to Tannas Kudos 40E. Due Late Jan.

Lot 85B - A.I. on April 11 to South Shadow 6Y TomBoy 130B. Exposed April 26 to June 6 to South Shadow 6Y TomBoy 130B. Due Mid Feb.

These heifers are both sired by our Brookmore Rage Bull and out of two very similar Brookmore cows. 127E has a brother in our bull pen that was gaining 4.4 lbs. per day on our 1st month weighing after weaning. 127E is safe in calf to TomBoy for mid January. 129E is bred to TomBoy for a mid February.

Lot 86A - A.I. on April 3 to South Shadow 6Y TomBoy 130B. Exposed April 26 to June 6 to Tannas Kudos 40E. Safe to A.I. Date.

Lot 86B - Exposed April 26 to June 6 to South Shadow 6Y TomBoy 130B. Due Mid Feb.

Terms & Conditions

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

ALL CATTLE ARE SOLD: Subject to such tests as required for export under regulations of the Health of Animals Branch, Department of Agriculture for Canada - those corresponding to Bureau of Animal Industry requirements.

BREEDING GUARANTEE: All cattle are sound and sold with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions, standard with the Canadian Aberdeen Angus Association shall apply.

HOLDING AND SHIPMENTS: Approximately one week is required for export transfers and other documents to be processed. Export animals will be held at no charge and under excellent care. Joint export shipping arrangements to attain minimum shipping cost will gladly be made by the sale management if instructions to that effect are provided to clerk of the sale when settlement is made.

MAIL BIDS: May be entrusted in complete confidence to any of the Sale Staff listed or to the Sale Managers.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the clerk's desk from the appointed representatives on sale day, also from the sale management at any time.

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the Sale on Sale Day. U.S. Funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received prior to departure times.

ALL PERSONS who attend the Sale do so at their own risk, and the Owners, Sale Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.
