## Purebred Black Angus Female Dispersal

**1 PM FRIDAY • DECEMBER 13<sup>TH</sup> 2019 • HEARTLAND LIVESTOCK • VIRDEN, MANITOBA**

Dear Cattle Producers and Breeders,

Welcome to our Purebred Black Angus Herd Dispersal. John and I entered the purebred industry in 2002 with heifers purchased from Prairie-lane Farms, Peak Dot Ranch, Mar Mac Farms and one cow from a dispersal of Lenlook Angus. It was a small start, but we worked on building a solid foundational group of cows, eventually turning to AI to speed up our progress, using sires like Bar Ext, MYTTY In Focus, S Titlest 1145, VAR Reserve 1111, PA Power Tool 9108 and Hoover Dam. We started selling bulls out of the yard in 2012 and continued our learning and growing as purebred breeders. Our plans for our herd have been sidelined by John's increasing back problems, and this spring we made the difficult decision to disperse our purebreds, reduce our commercial herd, and push back our main herd into warmer weather calving.

The cows and heifers all went through a fixed time AI protocol, with Brett McRae doing our custom AI, May 10, 2019. We have been averaging about a 65% AI conception rate over the last 5 years that we have been using this protocol. AI Sires used this year include Bush's Easy Decision 98, S Whitlock 179, Musgrave Colossal 137 and EXAR Resistol 3710B. Pregnancy checking will occur in early December.

We would welcome you to visit the farm anytime prior to sale day, or the cows will be available for viewing at Heartland the day before the sale. Please call or email if you need any additional information. All cows and heifers are registered and papers will be transferred at buyers request. All sires used have been DNA typed.

We would like to offer a huge thank you to our bull buyers and to those that have helped and supported us over the last 17 years, and especially over the last two years. Only in the cattle industry can a buyer come to your yard to look at bulls, and end up staying to help you tag calves when your husband is laid up! Even in the midst of challenging times, we can truly say that we have been blessed.

John and Gloria Turner
