Web: www.fleurycattlecompany.com

I would like to take this opportunity to welcome you to Fleury Cattle Company's two-year-old bull sale. This spring marks a special year for Fleury Cattle Company as we have experienced a trip around the alphabet raising Angus seed stock. We have witnessed considerable change in this industry over the past 23 years. One constant for us has been our vision for breeding Angus cattle. We understand the importance of improving genetics. We do not chase fads or follow trends but instead continue to build off our proven genetics to offer predictability for our customers. I would like to thank all who have chosen to invest in our genetics in the past. We are very fortunate to deal with the quality cattle producers that we do; your trust in our breeding program is what fuels us and without you this would not be possible.

Markets have strengthened, momentum is building, and optimism continues to grow. I feel it's an opportune time to be in the cattle industry. However, as production costs rise it has never been more critical to raise cattle excelling in natural growth. We at Fleury Cattle Company believe performance drives profit and continue to breed performance cattle with the most current outcross Canadian Angus genetics available today.

On offer this year will be 55 two-year-old Black Angus bulls. The sires of these bulls are carefully selected and backed by our prominent cow families. These lines have contributed to the success of our program. Our genetics have been tried and tested, eliminating any guess work and ensuring future success for our customers. When sourcing breeding stock from Fleury Cattle Company you are investing in a proven breeding program. Many of the bulls on offer are $\frac{1}{2}$ or $\frac{3}{4}$ brothers, enforcing dependable genetics necessary to guarantee quality and predictability.

We invite you out to the ranch anytime prior to the sale to view our sale offering. All sale bulls will have videos on DLMS and our website for you to view at your own convenience. We encourage you to attend the sale in person and look forward to seeing you sale day.

Sincerely,
Matt Fleury

STANDING BEHIND WHAT WE SELL

All bulls in the sale are semen tested, scrotal measured, and vet inspected by a licensed veterinarian. All buyers will be provided with a semen evaluation certificate.

SIGHT UNSEEN PURCHASE PLAN

If you are unable to attend the sale, you can have Matt handle your purchase. Nobody knows the bulls better than Matt and he can assist you in the selection of your bull. Please contact him by phone at 306-291-3960.

TRUCKING

Free delivery to Saskatchewan, Manitoba, and Alberta. For purchases going beyond, we will help accommodate delivery as economically as we can. All bulls will be delivered to your farm or central points following the sale.

TERMS AND CONDITIONS

TERMS The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and, in cases of disputes, the auctioneer's decision will be final.

Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced on sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

HEALTH All animals in the sale have met all necessary health requirements.

GUARANTEE Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects, and from both reproductive and specific genetic unsoundness.

LIABILITIES All persons attend the sale at their own risk. The seller, facility owner, auctioneer, and sale staff assume no liability, legal or otherwise, for any accidents that occur.

INSURANCE Agents will be in attendance to insure your purchases. We strongly recommend that insurance is purchased for full value.

THE RIGHT TO COLLECT SEMEN Fleury Cattle Company reserve the right to collect semen for within herd use on any of the bulls sold at their expense and the buyer's convenience.

BULL DEVELOPMENT

I believe bull development starts from the day they are born. At Fleury Cattle Company, calving starts April 20th; the calves are born on grass in their natural environment. Canadian winters get very cold and spring calving eliminates any stress that the cow and calf may experience by calving in the cold. Calving on grass is virtually stress free for mama and baby.

The calves are raised on the cow for six months with no creep feed. Calves are weaned in November and in the first year the yearlings are put on a TMR ration not exceeding 1% of body weight of grain per day, maintaining a 2.5 lb daily gain. Feeding the bulls out on a light ration promotes growth development; the bulls are not pushed. The first week in May they are then turned out on seeded forage pastures where these bulls grow frame and are developed in a natural environment. The bulls walk for their feed while grazing all summer. This grazing process develops their athletic ability, frames the bulls out, and develops their joints and muscle at an acceptable pace.

We bring these bulls home from grass in early fall and they are put on a TMR ration designed for a 3-3.5 lbs daily gain. These bulls are developed with longevity in mind. On sale day these bulls will have reached 75% of their mature weight as a two-year-old. Running two-year-old bulls gives a better idea of what that bull is going to mature into. Two-year-old bulls are capable of covering more cows and require less development. We believe a two-year-old bull is past the calf stage, knows he is a breeding bull, and is ready to go out and breed cows.

As agriculture evolves we notice farms and ranches expanding. With this growth, operations need to be more efficient and economical to sustain a profitable operation. Due to ranchers expanding their cow herds, cattle are run in larger groups and the demand for two-year-old bulls has never been greater.

Fleury Cattle Company only sells two-year-old bulls and every bull goes through our bull sale. No yearling or two-year-old bulls are sold off the ranch. We believe in developing our bulls for our customer. We are proud of the fact that all bulls sale day are ready to breed and cover more cows and also have a better chance of survival when turned out into multiple breeding fields.

FLEURY CATTLE COMPANY EPDS

As a seed stock producer, Fleury Cattle Company is committed in providing accurate data. Straight Canadian EPD data has not accumulated enough accuracy to become a true reflection on these genetics. We continue to work with the Canadian Angus Association to build accurate EPDS on Canadian bred cattle.

It is with great excitement we introduce to you our new herd bull, Glen Islay Gold Rush 7K. He comes to us from Don Currie of world-renowned Glen Islay Angus, whose lifetime devotion to the Angus breed is admirable; we thank him for the opportunity to acquire this new herd bull. We feel Gold Rush is a great fit for our breeding program, combining all the traits we like to see in a herd bull. JPC 7K is extremely thick, stylish, heavy-muscled, and has a lot of quarter. He was the highest performing bull in Glen Islay's yearling pen, earning the heaviest weaning and yearling weights. Gold Rush's sire, Double AA Bardolier 119U, is a bull that has made his mark on the Angus breed. He has bred extremely well for Glen Islay, producing many top bulls and females marketed throughout North America. JPC 7K's dam, Glen Islay Pride 2E, is a long, smooth-bodied, feminine female who has a beautiful udder. She has proven herself to be one of the top-producing females out of the Glen Islay herd. Glen Islay Pride 2E created quite the interest last fall when she traded for \$26,000 through the Blue Water Angus sale. We are incredibly excited for the future of Gold Rush and what he has to offer our program. Please feel free to stop by anytime to evaluate this exciting new herd sire.

1945491 · FAR 61D · April 24 2016

Fleury Blackman 134F was a feature bull sold in our 2020 bull sale, selling to Riverview Colony. We were fortunate to be able to purchase this bull back and were able to use him on a select group of females. FAR 134F's dam, Fleury Annie K 16Z, was the ideal Angus female; she was feminine and smooth-bodied with a tidy udder. The Blackman line of cattle has played a major role in our breeding program throughout the years and has contributed significantly to the development of our genetics. The Fleury Blackman 134F sire group could arguably be the most consistent sire group to sell in our 2024 sale.

The Bandolier line of cattle has been a part of our breeding program for many years. This line continues to excel in length, performance, and overall depth of body. The daughters are easy fleshing, functional cattle with longevity. Fleury Bandolier 61D was the high-selling leadoff bull in our 2018 bull sale, selling to Bronyx Angus. We have had the opportunity to bring Fleury Bandolier 61D back in to our program. FAR 61D is a long-bodied, big-footed, stylish herd bull that has played a major role in our breeding program. FAR 61D's pedigree combines the Bardolene, Blackman, Bardolier, and Bandolier lines of cattle; these four lines have played crucial roles in building our cowherd to what it is today. His dam, Double AA Annie K 224'05, was a deep bodied, good-footed, powerful cow offering the predictability of the Annie K cow. Fleury Bandolier 61D continues to be sound at the age of 8 and remains in our herd bull battery. If you are looking for longevity we strongly recommend looking at a Fleury Bandolier 61D son.

1963703 · JPC 12E · January 23 2017

Glen Islay Headliner 12E continues to breed well for our program. Sons have sold throughout Canada and into the US and we couldn't be happier with this sire's progeny. JPC 12E's daughters are in full production and have proven themselves as hard-working females. Headliner is deep and heavy-muscled with a lot of depth and a great disposition. JPC 12E offers our customers a complete outcross pedigree on the top-side, allowing us to line breed the maternal side back into our program. JPC 12E's dam, Double AA Annie K 203'06, is a prolific cow within the Angus breed, proving herself as a top producer by raising many herd bulls and replacement females throughout Canada.

2064317 · FAR 42F · April 29 2018

Fleury Blackman 42F is known for his overall style, muscle, and thickness. We admire the heel and foot under this bull. He was an absolute standout as a calf and has continued to impress us as he has developed into a mature bull. His dam, FAR 167B, has proven herself to be a top producing cow in our breeding program. Fleury Blackcap 167B is admired for her femininity, balance, thickness, and style. The Blackcap line of cattle was the first cow family established at Fleury Cattle Company. This cow family is extremely maternal and are big producing cattle. We have the utmost confidence Fleury Blackman 42F possesses the qualities to continue to move the Blackman line of cattle forward.

Fleury Bardolene 54G is a herd bull that is appreciated for his overall correctness, style, thickness, and muscle. He is moderately framed and extremely easy fleshing. The Bardolene line has been the corner post to our breeding program for many years. His dam, Double AA Annie K 904D, is a powerful cow with a big foot and plenty of thickness. Fleury Bardolene 54G will offer moderate birth weight while still excelling in performance.

Fleury Tom Boy 61G was retained to continue the legacy of Ranchers Choice Tommy 182B. BTR 182B was a herd bull that bred very well for us. Many of his sons topped previous sales and we have many of his daughters working in our cowherd today. Fleury Tom Boy 61G will help contribute to length, performance, and frame score. His dam, Fleury Annie K 109D, was powerful and long bodied while carrying a tidy udder. FAR 61G will offer added growth to his progeny combined with strong maternal traits.

Fleury Jumbo 118G promotes length, performance, and will add that extra frame into his progeny. The Jumbo line of cattle has proven itself to be very hardy, aggressive breeding cattle. The Jumbo daughters are feminine, smooth, and consistently have a beautiful udder. FAR 118G's dam, Fleury Blackcap 11C, is one of the most complete, top producing cows on the ranch. If you are looking to add frame score, length of body, and strong maternal traits, we highly recommend looking at a Fleury Jumbo 118G son.
