— LLOYDMINSTER EXHIBITION GROUNDS —

FORM & FUNCTION FEMALE SALE

THURSDAY - DECEMBER 19, 2019 - 7PM *New sale time*

Welcome

The Form and Function has grown into a fantastic sale in the Lloydminster region to buy top quality Angus genetics from a consortium of breeders that are bringing a fantastic set of cattle to town for your appraisal. NEW for this year is we have moved this sale to an evening event starting at 7pm allowing your juniors to attend this sale as well. Whether it be heifer calf or bred heifer, red or black this offering really covers the bases in genetics, yet comes right in at the top when it comes to the quality. A number of these heifers would sure work as a junior project with kid friendly and fancy while having seen their dams you can rest assure they will most importantly become cows. The bred heifers are carrying coupons that will elevate your program to the next level with the return on investment being immediate. The Angus cow has been a constant sight in the pastures and will stay that way with their ability to adapt to such a wide variety of environments.

On behalf of the consignors we invite you to join us Thursday afternoon for a preview of the offering and supper before the sale at 7pm. Should you be unable to attend the sale feel welcome to contact any of the of the consignors, sales staff or ourselves at Castlerock Marketing and we would be happy to give you a hand in your genetic selections.

See you sale day!

Shane Castle

Country Lane Queen 12G is a moderate, big-topped female who is structurally correct and elegant in her design. Her Mother has been a consistent producer for us, raising bulls for the bull pen and 2 daughters retained in our herd, one of which has elite dam status. The Equate calves are deep, thick and easy-

fleshing. He has done an amazing job on his first crop of calves so we decided to let one of the good ones go. Be sure to check her out on the 19th!

Country Lane Beauty 41G is definitely a Mama cow in the making when you analyze her pedigree. She is clean in her lines and extremely feminine in her make-up. Her Mother is moderate in stature with a near-perfect udder and a good solid foot under her. 120C raised an exceptional bull calf on her first try

that we used in herd. 41G's Sire, Stunner, is producing calves with muscle-shape, depth of body, great growth all in a calving ease package and she is no exception. This little lady is definitely worth a look. Here's your chance to own a "Beauty"!

Here is Fay 908G a must have female! She starts with a pretty head, good neck, and smooth shouldered that all flows into a sappy belly. Transitioning into her rear third she's level from her hocks to pins with a nice set tailhead. As you analyze this one going to the ground, she flexible in her hock and has

great set in her pastern. Put all together, on the move she's extremely sound. All with a cow family that backs her up!

This is a very fancy heifer calf with added frame. She is sired by our Net Worth bull and her dam was purchased at the Frontline sale from Valley Lodge Cattle. Our first Net Worth females calved in 2019 and are very neat-uddered, functional females.

Here is the first ever female we have ever offered out of our EVERBLACK cow 32X. When we purchased 32X she added a cow family to our herd book with a ton of power, size and extra dimension to help us produce those bull calves that so many ranchers look for to add to their bottom line. Now we offer a

piece of that to you! This heifer has that brood cow look and depth of body that we all know equals big boned, muscley bull calves. She is sired by our late and very much missed herdsire Avelyn Hi Cal 472'14. Hi Cal's calves have always led the pack with incredible rib shape and excelled in their width and muscle shape. This heifer will likely be the last Hi Cal female we offer as his semen inventory is now limited and no longer available, except for in herd use. Don't miss the opportunity for a great one!

Eula 4G is very soundly structured with tremendous overall dimensions..... deep bodied with big rib and loads of natural muscle. With tons of hair, 4G exhibits a very attractive front end showing lots of neck extension and a sweet front end. Docile and easy to handle, she naturally sets herself up with the

heads up look that draws your eye. A daughter of Werner Flat Top out of a three year old, 4G will develop into a solid mother cow with loads of performance.

- Sire of Lot 8

Anyone that has toured our place has more than likely noticed this young heifer's mother. Becky's personal favorite, 51Y, is a model angus cow and it still shocks me that Becky is letting me bring this one to the sale. She is a little younger heifer and moderate in her frame

but one that will definitely catch your eye. Her 3/4 brother was a past high seller in our bull Sale to WJ Simmentals and Clifford Land & Cattle. This combination of Easy Rider and Mardi 51Y is a sure thing for maternal greatness in our minds. Juniors take a look, she would be a lot of fun next year as a bred heifer and better yet, when she enters production.

We introduced an AI synchronization program into our heifer pen a few years back and its worked extremely well for us. It allows us to bring in some fresh genetics and the results have been encouraging. 12G is a direct result of the program, she comes off a beautiful first time monarch heifer. The monarch

females in our herd are irreplaceable. They have beautiful udders and just have that "angus" look. The Stunner progeny at our place have been very well received both on the heifer and bull side of things. We like the results so much we used him in our heifer pen again this year. This young female will not disappoint.

 - Dam of Lot 10

A moderate-framed broody heifer calf with a stacked maternal pedigree. She is an ET calf from a never-miss premier elite dam that has proven herself repeatedly, whether she has bulls or heifers. Fertility is not a question with her dam as she produced 25 grade 1 embryos in this batch; the only reason why we're willing to part with this heifer.

A thick solid made female, Cajun WFT Pride 5G mirrors her dam, 4B and granddam, 30U. She has the same stout set to her profile and the natural muscle as 4B and 30U. Both of these females have produced sons who inevitably leave the bull pen first simply because of their muscle pattern.

Being a daughter of Werner Flat Top and out of this cow family, there is little doubt that this heifer will flat out work and be one of the front pasture kind whose sons and daughters are sought out by true cattlemen.

WBDK 1W
 - Grand Dam of Lot 12

The first Daughter of Pedersen Easy Rider to sell and we feel she is worthy to represent. Easy Rider has developed into a very impressive individual, watch for him at the shows this fall. Here is one that would be a lot of fun to drag around to some shows! Massive in her rib shape yet very angular in her design and smooth fronted. Her grand dam, 1W, has been a herd builder for us and is now a key piece of our donor program and her dam, 10C, follows right in line with her. An efficient, soft made, and massive ribbed female with a great udder and feet. Pretty sure you'll have no problem finding this beauty.

Another fancy made female, bred from a cow family that we feel carries the traits of great cow makers. She is maternally related to one of our high sellers of all time, from her granddam 16U. She boasts that more moderate feminine frame with great lines and angularity. From the sires side, Early Sunset

Xcaliber 1C was used heavily for his calving ease and fleshing ability in our heifer program. His first daughters are producing well and we have high expectations of them in the future! Let this one go to work in yours!

Country Lane Dyna 29G is a well-balanced, feminine female coming to you from a highly productive cow family at Country Lane. Her Great-Granddam, Roseholm Dyna 92X with elite status, is still producing along with a number of daughters and granddaughters retained in the herd. A heifer out of this cow

family was one of the high sellers to Roy Mac Angus at this very sale last year. 29G's Sire, Musgrave 316 Stunner, has left us with an impressive, consistent group of offspring. Backed by a great cow family with strong maternal traits and great phenotype and a popular calving ease sire, Dyna 29G is destined to be a great producer for her new owner. The opportunity is yours to take!

31G is a dark, cherry red, big bodied heifer that is very easy to notice! 31G's dam is a big bodied, fertile cow that we wish we had more of. 31G is a heifer with lots of future; she is a female that could certainly be shown but more importantly, she will be one that will produce!

Sweet cherry red and piles of hair, Tess comes from a very strong cow family that pieces all the right things together! Just an end of February heifer that was always one to catch your eye when touring the heifer calves in the spring and summer. We are confident that she will be a great junior project and turn into a very appealing and productive cow just like her dam.

Our first offering out of Red GJP Outlander 52E, a bull we purchased from Pugh Farms. Greg showed this Bull in 2017 and won both Stockdale Round-up at Lloyd and Farm Fair in the spring Bull calf division. Outlander definitely adds maternal and performance to his progeny. This stylish beauty

is dark red, long sided, good footed and has a great set of EPD's. Born March 18 and weaning off on Sept 18 @ 740lbs. As an added bonus she is out of a CAA designated Elite Dam.

A stout, dark red heifer that we are proud to be bringing to town for our first kick at selling via auction. We let Shane dig right in deep as we want people to see the type of cattle we are trying to raise. Sired by the Crusher bull from Northline with a shot of Goldmaster and the good Wild Thing bull we purchased from U2 Ranch. Her dam is great uddered and easy doing, what we feel Red Angus should be.

This Mac daughter is long, deep sided, while maintaining a gorgeous front end. Her mother was purchased from Lone Stone Farms in their first female sale and has proven to be a top end type of cow. 18G is sure to follow in her foot steps. The Mac bull produced us females that easily fell to the top of the replacement pen.

A powerful Bullion daughter who have made their mark not only in our herd in the females we've retained, but also through the various daughters we have sold over the years. The dam being an Eliminator out of an Epic Encore breeding which is rich with Shoshone blood gives this female an interesting pedigree.

A moderate framed heifer with a big wide top. An exciting mating to KG Solution 0018. His calves are usually born short of the 282 gestation. They are small at birth. They have a very explosive growth rate from birth to weaning. Solution calves, both bulls and heifers, have been equally good.

A maternal sister sold through the Frontline sale to Abound Livestock. The KG Solution bull calf she was carry resulted in the high seller for Abound in their 2019 bull sale. For me as a breeder there is nothing more satisfying than having our cattle turn a profit for their new owners.

We are proud to raise females with a different genetic twist like 37F. Sired by the Fighting Irish son we sold to McKevitt's Finest Angus, she displays many maternal qualities that we look for in a female. Moderate based, wedge shaped with strong Angus character. She is *carrying service to Merit 8015F*, a Range Boss son with multiple generations of calving ease bred in.
Due to calve end of February/early March

PED 301D

- Dam of Lot 41

A female that is moderate in her outline but large in rib shape, depth & has a huge future. Her dam, PED 301D, sold to Goad Family Farm and Avelyn Angus as a high seller and feature heifer at the Fall Fusion Sale. We

retained an interest in 301D and so this terrific daughter is a joint consignment from the three of us. Unfortunately, we lost 301D in July last year and this sweetheart was an orphan from then on. She never let that hold her back! She has developed into one you will appreciate from any angle. We feel she has a huge future ahead of her and will be the front pasture kind just like every generation of her cow family.

AI'd April 19th to Brooking Trendspotter and exposed April 30th to Country Lane Just Do It 8D. Ultrasounded safe to a January calf.

This heifer is one of many in the last few years born from our most fertile & productive donor 707W. The 707 cow family has always been a highly regarded family for producing sound and functional breeding offspring. We have marketed many sons and a few daughters out of the many females we

have working in the herd. 25F is one of the most eye appealing daughters we have ever put up on offer. She has that feminine angular stylish look that we all look for with that extra round muscle shape from her sire Young Dale Xcaliber 32X. What might this combination lead to? A very balanced & correct individual with ample maternal strengths in her pedigree from the Sitz Alliance and Kruggerand 410H sires on the dam & granddams pedigree. Service to our Avelyn Epic 05'17 herdsire that has left that extra width & a deep quarter, which is highly sought after within an ever demanding beef industry today. Exposed March 23 - June 1, 2019. A Cruise daughter and this one is hard to let go of since she is the only daughter we have as he likes to throw a lot of bull calves. 30F is an attractive female with good width of her hooks with some length and style. Her dam puts everything into her calves year in and year out. She came via Gerry

Wolfe's dispersal and Cruise was the in dam coupon we clipped that day, gaining a number of friends at the Tour. The Mon Charmer cow family is one of the strongest we have in our herd as they all do an excellent job.

If you're looking for power and performance, then here may be just what you're looking for. A bred heifer with lots of topline, beautiful neck extension with tons of power through her hind quarters that goes deep into her legs. Bred to Family Ties Blue Chip 794E a AI son out of OSU Blue Chip. This bred will make a wonderful foundation female that will find a home in anyone's herd. You may not find a more powerful bred with any wider backline, lots of depth with tons of class. Look her up sale day.
Exposed April 1 to June 1 to Family Ties Blue Chip 794E Due mid Jan.

TERMS & Conditions

- 1. TERMS:** Unless otherwise previously arranged with an individual consignor, terms of this sale are cash payable in Canadian funds at the prevailing rate of exchange on the day of sale. All cattle may be held until the selling agent is satisfied that suitable arrangements for payment are made.
- 2. IN THE CASE OF ILLNESS,** a veterinarian will be called by the Sales Manager if deemed necessary, but any expense involved will be the responsibility of the CONSIGNOR until the animal is sold and the PURCHASER thereafter.
- 3. AS SOON AS AN ANIMAL IS SOLD,** it becomes the responsibility of the purchaser.
- 4. BIDS:** Every animal entering the sale ring will be sold to the highest bidder. There will be no by-bidding by the owner or anyone authorized by him, however, the owner will be permitted one protective bid.
- 5. DISPUTES:** In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.
- 6. ANNOUNCEMENTS:** Errors discovered in the catalogue will be corrected by announcements from the Auction Stand at sale time, and such corrections will take precedence over the printed matter in the catalogue.
- 7. CERTIFICATE OF REGISTRY: A CANADIAN** certificate of registry duly transferred will be furnished to the buyer for each animal after settlement is made.
- 8. SHIPPING:** Assistance will be given in making shipment after the sale, but no risk is assumed by the Castlerock Marketing or the seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.
- 9. ACCIDENTS:** Although every precaution will be taken to protect the safety and comfort of the buyers, neither the Auction Market, the Sales Manager, nor any owner assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.
- 10. LIABILITY:** Lloydminster Exhibition Association and Castlerock Marketing are acting as agents only and assume no responsibility for representations made by the seller. Purchasers must look to the seller for fulfillment of all guarantees and representations made by the seller.
- 9. BREEDERS GUARANTEE:** The terms standard with the Canadian Angus Association shall apply. Beyond that: (a) All animals sold are guaranteed breeders. (b) All bred females have been declared safe in calf by a qualified veterinarian. Pregnant females are guaranteed pregnant a minimum of ninety (90) days. (c) All mature females raised a calf in this year. (d) All calendar year heifers are guaranteed open at time of sale. Any animal that has not proven itself a breeder within six months after the date of sale, if, in healthy condition, may be returned to seller at buyer's expense. The seller reserves the privilege of trying for a period of six months to prove the animal a breeder. The seller, at his option, may either return the purchase price to the buyer or replace the animal with another of equal value in full settlement and satisfaction of ALL claims. Any complaints regarding fertility of any animal in this sale shall be directed to the Contributor. All complaints regarding breeding difficulties must be reported in writing by the buyer to the seller within the time specified above and any animal returned must be free from disease and in good health. Any calendar year heifer calf shown and/or flushed by the purchaser is no longer guaranteed a breeder under this paragraph #9.
- 12. INSURANCE:** Livestock insurance and/or transit insurance will be available. Insurance rep, Larry Toner, will be on-site Sale Day.
- 13. TESTING:** All cattle will be held at sellers' expense until all necessary health requirements are met.
