*5th Annual* Female Sale

1 pm Monday **December 3** 2018  
Johnstone Auction Mart - Moose Jaw - Saskatchewan

*Grant Peterson*

Featuring Black & Red  
Saskatchewan Angus Genetics

## CASTLEROCK MARKETING

Shane & Tammy Castle  
Box 415  
Swift Current, SK  
S9H 3V8  
Cell: 306-741-7485

[castlerockmarketing.com](http://castlerockmarketing.com)

The Frontline Sale has evolved over the last few years as a source of females that have proven their worth for their new owners. Isn't that what this is all about, making the cattle work for your customers? Selecting cattle for the sale is always enjoyable as there are many good herds across the land and the consignors to this sale are no different. Analyze the consignors to the sale, there are years of breeding purebred Angus cattle developing programs. The only way to stay around for a long time is by putting a productive, profitable product out there each and every year.

On offer is a variety of genetics available from bred heifers to heifer calves red and black. A great opportunity is before you to secure females that are breed leading and as time has proven if you're going to buy make sure you buy the good ones, there is always room to buy a top end female.

Stop in Sunday afternoon to have a preview of the offering at Johnstone's. Sale day is Monday at 1 pm and we welcome you to be our guest! Should you have any questions please feel free to contact the consignors, sales staff or Devin, Mark or myself.

See you sale day!  
Shane Castle

This ultra feminine and smooth made brood cow prospect is right off the top of our replacement pen. Seedstock has done a fine job for us as a son in our Git 'R Done Bull Sale created a lot of interest and was our high selling bull. Keepsake 38W is an Elite Dam. What better evidence of her future producing ability! Observed bred June 5 to 66 Cedar Wind 299E, a young calving ease bull with extra muscle selected from the 66 Ranch Bull Sale where he was one of the features. He had a birth weight of 69 lbs., an adjusted weaning weight of 717 lbs. (1st out of 60) and an adjusted yearling weight of 1,289 lbs.

Here is a heifer that is for sure to make a superb female. Her dam has been nothing but exceptional for us. Ryan Pipke purchased a full brother at \$13,500 which we kept an interest in and just weaned his first set of calves, calving ease with that extra bit of growth. A maternal sister to this heifer raised the top heifer calf this fall as well while being one of the nicest cows on the ranch. The dam of 712E is 209Z and her bull calf is sure to be a highlight for the 2019 Bull Sale. You can buy with confidence here. This heifer is very hard to let go of but we are excited for the future for her new owner.

AI'd April 20 to Musgrave 316 Stunner.  
 Exposed May 6th to June 1st to FRL Windy 2E.  
 Favourable to AI.

A female that is Shane's pick of the pen and very hard to part with. These Sitz Logic females are all deep-ribbed, long, broody females with great dispositions. Her grandam is a Bando 9074 daughter, which were noted for being very productive females. An awesome job done by a first-calf heifer. Having HF Tiger in her pedigree, adds to this heifer's maternal strengths. Once we realized she was safe in calf to SAV Final Answer 035, this made her that much harder to part with. This coupon she is carrying will be a very marketable male or female.

Safe to AI service on April 10th, 2018 to SAV Final Answer 035. Due January 18th, 2019.

**LOT 4** - Nesset Lake Erica 6E

Here is a heifer packed with goodness. So super fronted and laying a superb udder already!! Her dam was one of the best made cows on the whole ranch. My daughter Addyson showed 751E as her 4-H project this year and she was first in her class at Regionals. A super temperament and the backing to really make a great cow. Her service is to a bull we raised going back to the \$40,000 Centennial bull we purchased with Sooline. He is jam packed with maternal greats. Have a look through his pedigree. The ticket inside this heifer will be a very cool outcross.

Exposed April 15th-June 4th to FRL Black Snake 33E. Due Mid February.

A very powerful female, which is no surprise being out of Basin Payweight 107S. She is a very clean-fronted female with an extra rib. Our Payweight progeny have been in demand every year, the extra length of spine and pop catches everyone's eye. Her dam has been a very functional female out of Hilow Super Systems 12S. She is safe to AI service on April 10th, 2018 to our herd sire HF Sequal 40Y. The Sequal Payweight cross has worked very well for us. Due January 18th, 2019.

A unique pedigree as this heifer is sired by a full sibling to SAV Resource and SAV Renown, two bulls that have more then left their mark on the breed . Blackcap May 4136 might be one of the great daughters of 004, the Blackcap May cow family is also responsible for Angus Valley and Density. Power in the blood. Exposed to JL Final Answer 7059 May 10th-September 18th.

We bought the Breakout sire for his all-out performance, but the quality of his daughters may be where he is really going to shine. Being an Alana female certainly adds a lot here- 42Y is a never miss female. The service sire is a fancy son off Coleman, one of our top heifer friendly herd sires ever. Cavalry should leave stylish, good footed calves, with super udders on his daughters. Bred to Red U6 Cavalry 28E on May 16th. Ultrasounded safe for Feb. 22nd due date.

When we decided to offer the first bred heifer we have sold in over 20 years we wanted to make sure she was not just another heifer. 21E is as good as any we have raised. She is a big feminine broody power cow in the making. Her full sister 5C is working in our cowherd raising an \$8000 bull to Greg Oldhaver in our 2018 bull sale and weaning Scoof 1F, our heaviest bull calf in October.

The vet called 21E due early to mid February to Red Lines Scoof 10D. He was our highest selling bull in 2017 to Flying K at \$19,500 for half interest; his calves are standouts at both outfits. We are confident that 21E will be a top end cow for her new owners.

Provincial daughters make up a good part of our red cowherd so we are able to release one of his best yearling daughters. Daisy 151E is out of an excellent producing Upcountry cow with a very sound and attractive udder. This heifer is a little greener than most since she didn't return home from a dry summer pasture until late October but we have no doubts about her breeding value.

Exposed May 7 to June 9 to Red Kenray Staunch 61D, the high selling bull in Kenray's 2017 sale. He is a calving ease sire with a strong maternal heritage whose first calves identify him as a great breeding bull. Preg tested Oct. 20 safe 150 days.

Shane asked all of us breeders to dig deep into our herd to make this year's Frontline Sale better than ever. When he wanted 53E we decided she was the one for two reasons: she is a Grand Slam and she's bred to our new up and coming herd sire New Direction 13E. 53E is a dark red, long bodied, deep sided bred and is laying down a gorgeous udder. She is halter broke and very quiet. Her mother was a Chateau 744 female with a picture perfect udder at 13 years old. 17S has some very productive females in our herd and Scope Angus from Hays, AB.

13E is a New Direction son we raised off one of our foundation cows 18W. He is dark red with tons of hind quarter, BW of 75 lbs. and extremely structurally correct. We showed him last year at Agribition and decided to keep him and use him ourselves. This year he took home Champion Jr. Angus Bull at Prince Albert, Champion Bull at Nipawin Fair and Champion Bull at Shand Fair. He will also be at Agribition this year. Exposed to Red T&S New Direction 13E until July 10, 2018. Observed bred on April 23 which would be January 30 to calve. Vet checked safe to this date.

Red Rock Point Rosaline 14F is strong topped, with bold rib shape, tremendous foot and strong breed character. A sweetheart of a female to work with and a great hair coat would make her a great junior project. We partnered with J Bar Dee to buy her sire, Red Triple L Jagger 18C, who has left us some astonishing calves, he was also one of the highly competitive show bulls last year being admired by cattlemen in all breeds. It is a hard decision to part with any of our females off him but we are excited to share some of the genetics that we are so proud of. 14F's dam is a 4 year old highly productive cow for us, we retained her first daughter, sold a full brother to the Birsay community pasture this spring and now are offering this year's daughter. Rosaline is halter broke and leads but is still a little green.

This mid February born heifer is off a deep bodied, dark red Ripper female. 90F was easily picked out by Shane as she is a moderate, fancy made heifer. Our 1st set of Valentine heifers have really proved themselves with beautiful udders, and lots of milk. They have raised some of our top calves in both our commercial and purebred division of our farm and they maintained their condition. Anyone who looked through T-K's Dispersal catalogue could easily pick out the beautiful Packer females. They are standouts and we feel she has the same potential. If you are looking for a show female she is the one for you.

Rosa is an early January born, sweet fronted, powerful heifer that has caught our eye since birth. To top it all off she is very quiet. Valentine sure passes lots of neck extension and smooth fronts to his calves. Rosa is off a very deep bodied Major League dam who throws low birth weights and then watch them grow. The combination of Rosa and Valentine worked extremely well for us. 4F has a BW of 74 lbs. and on Sept. 1 she weaned off at 728 lbs. The kind of cow that you want to produce your herd bulls.

Although we have been breeding registered Red Angus females for 25 years, an off farm business kept us too busy to register offspring. Now that we are devoting more time to the cows we are finding the time to register. We gave Shane free reign while choosing the two heifers. 81F should follow her mother who we bought as a calf. Dam has a great foot, udder, docility, longevity built in. Wraz 52D should make for excellent growth and maternal traits. Rob Roy and Soo Line Northern on the dam's side as well.

This heifer calf comes highly recommended. She has the extra power and punch from the Thunder bull. But best of all her mother and grandmother have been great cows. Her grandmother raised FRL Muldonado 14X. A herd bull we have been using for years along with are partners Klassen Bros. He is leaving a set of females that are second to none. While leaving bulls that have caught the eye of many customers. This is a no miss cow family and we are confident in this girl's future.

Lot 33 Dam

Please be our guests for lunch prior to the sale

**Canadian Angus EPD Averages**

Current breed averages for all calves born in 2018

What a sweet heart of a heifer calf. Her mother has produced 2 sale bulls in a row and now this doll. She is awesome minded and has tons of rib shape. This heifer would make a nice junior project but most importantly will be a solid producing cow in the future.

# Terms & Conditions ▶

1. Terms: The terms of the sale are cash or cheque at par. No releases will be given until satisfactory settlement has been made. All monies are in Canadian Funds, other funds will be accepted at the current rate or exchange.
2. Bids: Every animal entering the ring will be sold to the highest bidder.
3. Disputes: In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matter will be final.
4. Announcements: Any changes from information in this catalogue will be announced from the auction block, such changes will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to any such announcements.
5. Purchaser's Risk: Each animal becomes the risk of the purchaser as soon as sold.
6. Certificate of Registration: Each animal in the sale will carry registration papers issued by the Canadian Angus Association. A certificate duly transferred will be furnished to the buyer for each animal after full total payment has been made.
7. Accidents: Every precaution will be exercised to protect the safety and comfort of those attending the sale. Neither the owners, auctioneer, or any sale staff assume any responsibility in this matter and disclaim any liability, legal or otherwise, in the event of accident or loss of property.
8. Liability: All persons attending the sale do so at their own risk; sellers and/or sales management and/or any of the sales staff assume no liability legal or otherwise for any accidents occurring in, on, or about the premises.
9. Insurance: Livestock insurance and/or transit insurance will be available.
10. Export testing: In the case of animals purchased for export, the necessary custom, health, and export certificates will be supplied and expenses will be at half cost, other half will be responsibility of buyer.

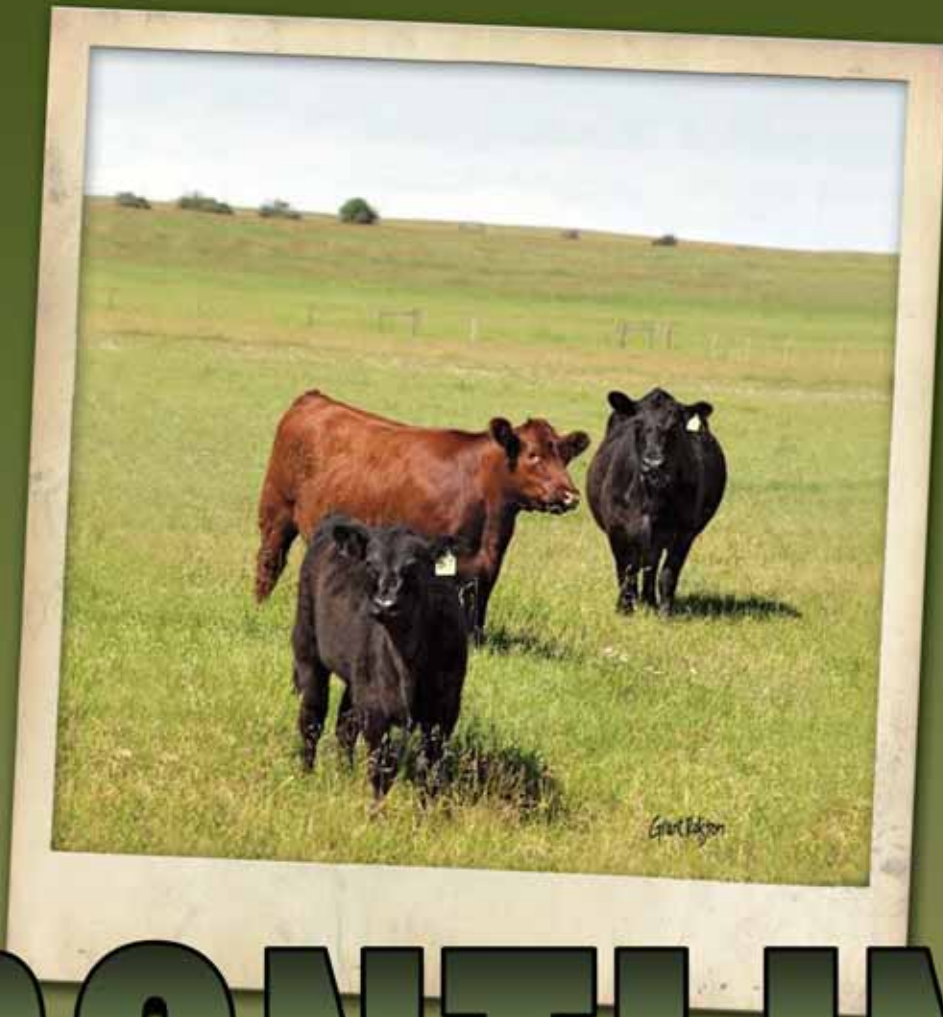

*Mail or Phone Bids: May be entrusted in complete confidence to any of the sale staff or representatives listed.*
