

# GLENNIE BROS. — ANGLUS —

LONG YEARLING BULL & FEMALE SALE

AT THE FARM DECEMBER 9, 2018 CARNDUFF, SK

# GLENNIE BROS. — ANGUS —

**DECEMBER 9, 2018**  
**AT THE FARM, CARNDUFF, SASKATCHEWAN**

## **DIRECTIONS TO GLENNIE BROS. ANGUS**

### **From Carnduff:**

From Hwy 18 turn south at the east exit into Carnduff onto the Super Grid (Range Road 1331) and go 5 ½ miles to the end of the pavement, then go 5 ½ miles west on TWP RD 20.

### **From Glen Ewen ( west of Carnduff )**

From the old truck at the east end of Glen Ewen go 3.8 km east on Hwy 18, then turn south at railway crossing and go 2.4 km south to dead end, then east 2.5 km to Range Road 1341, then south 10 km to TWP RD 20 then east ½ mile.

### **From Carievale Port of Entry on Canada/US border**

Go north 6 miles on Hwy 8 to TWP RD 20 then west 13.5 miles.

## **SATURDAY, DECEMBER 8**

**1:00 to 5:00 pm**

Cattle available for your appraisal

## **SUNDAY DECEMBER 9**

**11:30 am**

Complimentary lunch

**1:00 pm sharp**

Sale of Coming Two Year Old Bulls,  
followed by sale of Registered Bred Heifers

## **TERMS & CONDITIONS**

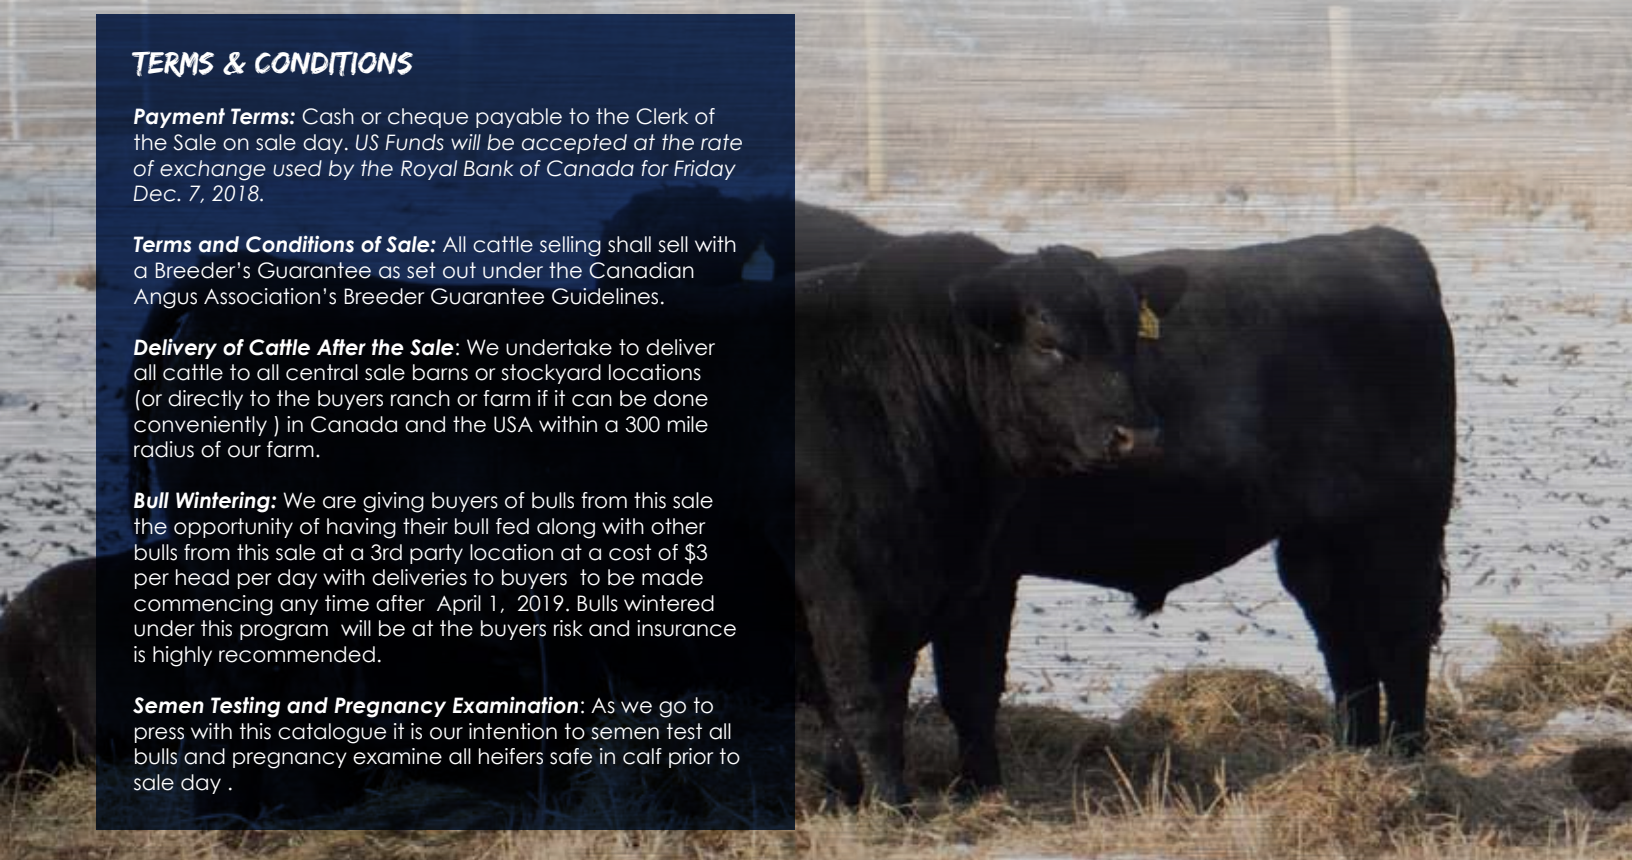

**Payment Terms:** Cash or cheque payable to the Clerk of the Sale on sale day. *US Funds will be accepted at the rate of exchange used by the Royal Bank of Canada for Friday Dec. 7, 2018.*

**Terms and Conditions of Sale:** All cattle selling shall sell with a Breeder's Guarantee as set out under the Canadian Angus Association's Breeder Guarantee Guidelines.

**Delivery of Cattle After the Sale:** We undertake to deliver all cattle to all central sale barns or stockyard locations (or directly to the buyers ranch or farm if it can be done conveniently ) in Canada and the USA within a 300 mile radius of our farm.

**Bull Wintering:** We are giving buyers of bulls from this sale the opportunity of having their bull fed along with other bulls from this sale at a 3rd party location at a cost of \$3 per head per day with deliveries to buyers to be made commencing any time after April 1, 2019. Bulls wintered under this program will be at the buyers risk and insurance is highly recommended.

**Semen Testing and Pregnancy Examination:** As we go to press with this catalogue it is our intention to semen test all bulls and pregnancy examine all heifers safe in calf prior to sale day .

### **WELCOME**

The Glennie Bros are pictured above just a few years back heading out on a spring calving check. That's Reg in front, and Wes in the back mounted on Queenie, our neighbours run away pony.

We mark 1971 as the year we started a herd of purebred Angus cattle with the acquisition of Lunder Middlebrook Lass 8C and some other Eileenmere bred heifer calves from Jesse Krokom at Bow Island Alberta. Lots of water under the bridge. In the past we consigned bulls to the Regina Bull Sale, and, confused at times about where we lived, also to the Calgary Bull Sale, and in more recent years to Canada's Red White and Black Bull Sale in Moose Jaw. But mostly over the years we have sold bulls by private treaty. As Bob Switzer said "Its about time you had a sale".

While all the cattle will be conveniently displayed sale day this will be a video sale conducted in the comfort of our relatively new barn and DV Auctions will broadcast it live over the internet.

Come early, appraise the cattle and enjoy some good food before the sale.

As a 2 year old we used 16B on some heifers with good results. Impressive as a yearling he has matured into a powerful herd bull with excellent feet and disposition. He adds muscle and scrotal development and his progeny are very correct with lots of Angus character. His dam is a very consistent producer with a nice udder with small teats. His sons in this sale are some of the later born bulls but an impressive group.

Arsenal sires a lot of performance, super dispositions, added scrotal and his young daughters promise to be good producers with nice udders. We have used him heavily by AI, have sold a lot of good sons and have just weaned some calves by Glennie Arsenal 15C who sold to the Bircham Ranch at Piapot Sask, home to the famous Rock Solid Bred Heifer program.

4A is a moderate frame bull maturing out at 2200 to 2300 lbs. We started out using him on heifers as a yearling. He proved to be an excellent calver, retained his flesh well and with minimum care developed into a very fancy two year old. He is a free moving bull who we have come to use more heavily as time goes on. His dam is a very moderate frame cow who consistently produces top quality progeny.

53'08 daughters are now the backbone of the Wiwa Creek herd. one of the of the most revered herds of purebred cattle in Canada. After AI'g to Monarch in 2016 we bought the youthful looking bull and he bred naturally here at 9 and 10 years of age. 53'08 is all about sound functional moderate framed cattle that last.

We bought the King from Frey Angus Ranch in North Dakota as a three year old. He has one of the highest docility ratings ever awarded in the breed. His daughters are very very productive in our herd and in years past were dams of some of the high sellers in Frey's bull sales. King was a free moving bull with a great foot and a super attitude. His daughters produced the following bulls in this sale: lot 2E, 41E, 56E, and 58E.

32D was service sire to our heifers the last 2 years. He is a Cedar Ridge son and a heifers first calf. He proved a very capable breeder as a yearling covering a large group in a fairly tight calving period. His calves came easily and were robust. His dam is from a Middlebrook Lass line of cows also noted for calving ease. His dam weaned our heaviest heifer calf in 2018.

Bought him as a yearling from Clint Smith. He was probably the best son ever of a great breeding bull, KR Topcut Quarterback 101H whom Clint bought from the Keefer Ranch in Montana. Topcut 326 was an impressive individual and a great breeding bull whose influence is prevalent in our pedigrees.

**WEIGHTS AND MEASUREMENTS  
AND HOW WE DEVELOP OUR CATTLE.**

We are in the Performance Program of the Canadian Angus Association and accordingly we weight our calves in the fall and weigh our bull calves again in the spring and also try catch a weight on the heifers in the spring. These actual weights are submitted to the Association and are then adjusted. The weaning weights and yearling weights below each animal's pedigree in the catalogue are the adjusted weights. In some of the footnotes we may make reference to some of the actual weights.

In 2017 we weighed all calves on September 25, without them having received any creep feed. We weaned the bull calves early November and the heifer calves about a week later. In the spring of 2018 we weighed the bull calves at the end of April but did not catch a weight on the heifers.

We winter our bull calves right here at home and feed a growing ration from Landmark Feeds along with free choice hay. With an appreciation for soundness and longevity we do not push our bulls to post big yearling weights. We run the yearling bulls on grass over the summer. As long yearlings in the fall we start grainning them again as we like to see these bulls put on some condition prior to winter setting in. I think you will find our bulls to be in nice rig but not over fitted.
