www.reichangusranch.ca

→ *Reich Ripper 37B*

Ripper is the most predictable bull we have ever used. The bulls he's sired have averaged a low birth weight of 82.5lbs. He is known to sire calves with big tops and lots of natural muscle shape.

→ *Reich Count 80Z*

Count 80Z is an extremely well balanced bull with tons of volume. His sons are deep sided with lots of performance, and you'll love the easy keeping feminine daughters he sires.

→ *K Three Zeus 1D*

Zeus was our lead off Simmental bull from 2017. We were able to utilize him as a yearling and have been Aling select cows to him since. His daughters are deep, broody, and feminine, while his sons are full of substance with excellent feet.

Welcome....

to the *2020 Reich Angus Ranch and K3 Ranch Bull Sale!*

We are very excited about this group of bulls, they are the stout, easy-doing kind that have been *bred for performance and raised for longevity.*

We have really enjoyed watching this group of bulls develop over the past 2 years. We do everything we can to allow the bulls to grow at their own rate. When they come in after weaning, they spend the rest of the winter in big pens with lots of space to stay active where they are fed a diet of mixed variety silage, but do not receive any additional supplement or ration. In the spring they are kicked out on to grass pastures where they will remain until late fall, this year the bulls again *averaged 2.8lbs/day over 180 days on grass.* When we bring the bulls in off pasture to begin preparing them for the sale, they are 18 months old and are again wintered in large pens with plenty of room to move. The bulls go onto a mixed silage diet and are slowly started on a textured ration. This is the first time in their lives that they will receive supplemental feed. We believe raising the bulls in this manner allows them to develop structurally and is beneficial to the animal's internal health, increasing the longevity of the bull for you.

We always aim for consistency in our program, we are not trying to produce an individual but instead strive to produce a whole pen of bulls that are one and the same. We feel that this year's sire groups have done that very well. We want our customers to be confident that they are buying a bull that will give them consistent and predictable results in their own operations.

We try to keep a low maintenance cow herd which is why we have again included the *Grass Gains Weight* with each of the bulls. This is the pounds gained per day, on grass, over the total grazing season. We feel this is an important figure as it shows the animal's ability to convert forage to lbs and maintain their own condition. We would also like to note that the rest of the weights provided for the bulls are actual weights for the date provided.

We would love to have you through the pens for a tour at the farms so stop by any time prior to the sale and remember to come early sale day for a Certified Angus Beef Prime Rib lunch and stay for coffee and pie after the sale.

*-The Reich Angus
and K3 Ranch Crew*
