A NOTE FROM THE RODGERS FAMILY

Welcome to our 45th annual bull sale! We have been providing Red Angus genetics to the cattle industry from near to the onset of when Red Angus was first introduced to Canada. We have seen many breeders come and go but realize it is our obligation to the commercial cattlemen that has kept us successful for so many years and for that we would like to **THANK YOU** for your commitment to our program. Our goal as a seed stock producer is to raise good quality cattle that will enhance your own beef program in the spirit of Red Angus cattle (*performance driven cattle that are born easily and grow quickly while maintaining their maternal traits*).

It takes a family to run an operation like ours and for the last few years our sons Ben and Kurt have been helping whenever work would allow. In keeping with the Rodgers tradition, our son Kurt has decided to move home and start taking a more active role in the operation. It is nice to see that Dad and Mom's legacy will continue for another generation.

Our cattle herd is ran like commercial cattle, as unassisted as possible. Cows are brought in off grass just prior to calving and returned to grass ASAP allowing them to develop on their own. We like cattle that can do it themselves with as little intervention as possible. Rigorous culling is done every year to maintain efficiencies in all facets and traits. Our herd is on the Pfizer Gold Program and we **DO NOT** creep feed or trim feet, this allows you to view the bulls in their natural condition.

Last Spring we had 159 bull calves born with 101 going on test. They were weighed off test on **February 10, 2018** with an **ADG of 2.72 lbs/day**. At the time of print the bulls have not been semen tested but will be by mid-March and those results and any scratches will be posted on our website ASAP.

The bulls can be viewed at South Slope Feeders in Rainier until Sunday, April 8. Monday, April 9 they will be moved to Perlich Brothers Auction Market and will be available for viewing there.

We offer a site unseen program so if for any reason you cannot make the sale please contact us or one of the sales staff and we will hold your bid in the strictest of confidence. The sale is **NOT FINAL** until you approve of the bull. If you are unable to attend the sale and would like to participate, the sale will be broadcast on the internet on the Perlich Bros. Auction Market website www.perlich.com. **This is NOT an internet sale**. In order to bid you **MUST** contact one of the sales staff prior to the sale and they will contact you prior to the bull entering the ring. **100% SATISFACTION GUARANTEED!**

Our adjusted weaning weights and indexes are calculated based on our actual weights rather than using the calculated age of dam adjusted weights from the Canadian Angus Association (CAA). We feel that this factor gives too much benefit to our younger cows (2-4 years of age) while at the same time diminishes the true herd matrons (5-10 year olds) calf performance. Example: A 2 year old cow on her bull calf has 74 lbs. added onto the adjusted weaning weight, 3 year old cow has 38 lbs. added and a 4 year old cow has 16 lbs. added, 11 year old cows and older have 27 lbs. added. That being said when you receive your registration papers from the CAA you will find your adjusted weaning weights and ratios will be higher on the bulls with younger mothers and lower on the bulls with older mothers.

WE LOOK FORWARD TO SEEING YOU ON SALE DAY!
PLEASE COME EARLY & JOIN US FOR LUNCH! WE LOOK FORWARD TO VISITING WITH YOU AT OUR POST SALE SOCIAL!

THANK YOU FROM THE RODGERS FAMILY

PERLICH BROS
AUCTION MARKET LTD.

In the hub of the livestock industry since 1967

Welcome to the *Rodgers Red Angus* Bull Sale!

The Perlich family and staff are proud to participate in this year's **Rodgers Red Angus** Bull Sale. The Rodgers family puts a lot of effort into their herd and it is evident in this year's group of bulls.

Rodgers Red Angus has a strong reputation for productivity and performance in their bulls. We look forward to working with Ellamae, Shawn and their family to provide you with top quality bulls at this years sale.

TERMS OF REFERENCE

TERMS OF SALE: Are cash, debit or cheque and all settlements must be made on sale date. The right of property shall not pass until after settlement is made. All settlement must be made with the clerks of the sale before any cattle will be released.

DISPUTES: In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over the printed material in the catalogue.

RED ANGUS EPD AVERAGES

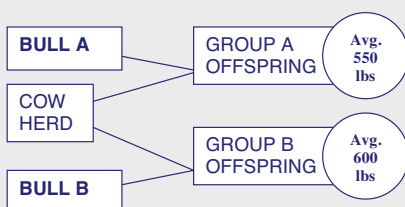

- allow breeders to estimate an animal's value as a parent
- allow a fair comparison of breeding value by removing environmental bias such as climate, feed and special management
- help breeders make informed decisions regarding breeding stock selection by evaluating numerous traits including growth-related traits (BW, WW, YW, Milk), carcass (REA, FAT, %IMF, etc.) and reproductive efficiency (CE, MCE, SC)
- estimate the average calf performance of one parent compared to the average calf performance of another parent, **assuming similar mates**

EPDs are an indication of how an animal's calves will perform on average compared to another animal's calves.

For example, if Bull A (weaning weight EPD of +10) and Bull B (WW of +60) were randomly mated with ten similar cows, we would expect the group average weaning weight of Bull A's offspring to be 50 lbs lighter than that of Bull B's (60-10=50).

Calf	A	B
1	500	400
2	510	450
3	520	500
4	530	550
5	540	600
6	560	600
7	570	650
8	580	700
9	590	750
10	600	800
Avg.	550	600

Note that not all calves from Bull B have a higher weaning weight, but the average is 50 lbs higher.

Accuracy – reflects the reliability of the EPD value. High accuracy values (>.70) mean the EPD value is closer to the true breeding value than an EPD value with a lower accuracy (<.20).
