# A NOTE FROM THE RODGERS FAMILY

Welcome to our 46th Annual Bull Sale! It's hard to believe we've been in the seedstock business this long. It seems like just yesterday we had our first bull sale. I guess it pays to have a short memory when you are in the cattle business.

As with every business we are very thankful for the great support we have received from you our clients over the years. You folks are the reason we are successful and can carry on doing what we love; raising quality cattle, performance driven that are born easily and grow quickly while maintaining their fertility and maternal traits.

This year brings a few changes as far as the EPD's are concerned. For more information on these changes please refer to page three for The Canadian Angus Association (CAA) ANGUS ONE program. In my opinion, they are only part of the picture. Evaluation of the actual performance information and comparison to their contemporary group and appraisal of the physical structure of the bull are most important to me.

Our adjusted weights and indexes are calculated based on their actual weights not using the calculated Age of Dam (AOD) adjusted weights from the CAA. When receiving your registration papers, you will find the indexes and weaning weight on your bulls will go up on the bulls that have younger mothers and go down on the bulls that have older mothers.

Our cattle herd is ran like commercial cattle, as unassisted as possible. Cows are brought in off grass just prior to calving and return to grass as soon as possible, allowing them to develop on their own. Rigorous culling is done every year to maintain efficiency in all facets and traits. Our herd is on the Zoetis Program and we **DO NOT** creep feed or trim feet, this allows you to view the bulls in their natural condition.

Last spring, we had 165 bull calves born, with 120 going on test. They were weighed off test **January 30, 2019**, with an Average Daily Gain (**ADG**) of **2.28 lbs/day**. At the time of print, the bulls have not been semen tested but will be by mid March with the results being posted to our website: **[www.rodgersredangus.com](http://www.rodgersredangus.com)**.

The bulls can be viewed at South Slope Feeders in Rainier until Sunday, April 7. They will be moved to Perlich Bros. Auction Market on Monday, April 8 and will be available for viewing in the afternoon.

We offer a site unseen program, so if for any reason you cannot make the sale, please contact us or one of the sales staff and we will hold your bid in the strictest of confidence. The sale is **NOT FINAL** until you approve of the bull. If you are unable to attend the sale and would like to participate, the sale will be broadcast on the internet on the Perlich Bros. Auction Market website **[www.perlich.com](http://www.perlich.com)**. **This is NOT an internet sale.** In order to bid you **MUST** contact one of the sales staff prior to the sale and they will contact you prior to the bull entering the ring.

**100% SATISFACTION GUARANTEED!**

## Canadian AngusONE EPD Evaluation

Please note that the EPDs listed in this sales catalogue are the product of the new Canadian AngusONE Genetic Evaluation. These EPDs are calculated by Angus Genetics Inc in partnership with the American Angus Association. Therefore, EPDs for Canadian Red Angus, Canadian Black Angus and American Black Angus animals are directly comparable to each other. This is a completely new base for Canadian Red Angus however, therefore, please be advised that the EPDs are not comparable to last year's EPDs for Red Angus. These EPDs are on a completely different scale, so please familiarize yourselves with the new Breed Average and with the new threshold number for traits of importance to you. The right EPD for you will depend on your cow herd, your management, and your breeding goals. For more information on using EPDs please contact your Association, the Canadian Angus Association at 1-888-571-3580. For more information about the genetics offered in this catalogue and what might best suit your breeding needs, contact the seller.
