BORDER BUTTE VOL 18
BULL SALE

BORDER BUTTE Vol. 18 BULL SALE

Every producer has an individual idea of a preferred animal when they set out to build a herd. Each herd differs region to region, climate to climate, eye to eye. What type thrives in our area may differ from what thrives in other areas of the country. Different Geographic's; to an extent, require focus on different phenotype of an animal that can be seen as a strength or fault. But where all animals will have similarities will be the need for traits that compliment a producers focus; maternal traits where needed, terminal traits again where needed, longevity, structural soundness, do-ability.

A lifetime is easily spent "tweaking" the favorite cow line to try and get the "one to tie to". At our house you will never hear it said that we have it exactly right, but you will sometimes hear I'd like to change this or strengthen that. That is why we invest the time to seek out and buy our new walking herd sires and investigate our potential AI sires as thoroughly as we can, because we believe whole heartedly to "not stop once you've got it right, but to keep trying until we can't get it wrong".

Please join us on the 16th of December to appraise what we have been up to over the last year and see our excitement in this next set of calves.

Cindy, Dale & Roan Bosch

A WORD FROM CASTLEROCK

Welcome to the 2019 Edition of the Border Butte Angus bull sale and what an offering they've got in store for you. Working with this great family, Dale, Cindy and Roan are heads down ass up working kind of people all year long and they expect as much from the cattle as they do themselves when it comes to work ethic. 2019 proved to be extremely cold in the winter and then was a long dry summer with relief given with good moisture this fall. You want to find out which cows are the workers, give them a drought and dry grass and you will see the cream rise to the top. These calves dams did exactly that, they performed when they needed to the most. The offering boasts a number of sons from the High Selling bull to Valley Blossom Ranch a few years back and his calves have not disappointed at all, modest birth with good growth is what Blaster 305E bring to the table. In the pen you will find various types of bulls from clear cut heifer bulls to the power bulls with the common denominator being these are good footed, quiet, rancher bulls that will perform under harsh conditions giving you live calves and pounds to sell in the fall.

Join us December 16th for the sale at the Medicine Hat Feeding Company, stop out prior to tour the bulls and their dams. If you have any questions or are unable to make the sale the sight unseen program is available at your fingertips, we'd be happy to help you.

See you sale day!

Shane Castle

IMPORTANT WINTERING & DELIVERY INFORMATION

With the Change in sale dates we also need to answer some question in regards to wintering of the bulls. All yearling bulls will be taken back to Border Butte, where they will be developed and semen tested in mid to late February. The 2 year olds will be semen tested prior to sale day and will need to go home with the new owners.

In mid March we will call owners and make arrangements for delivery of the bulls and while we realize not all producers can take their bulls at that time those bulls will remain at Border Butte until the usual time of delivery.

However any bulls going to the new owners mid March will have their name put into a draw for a \$1000 bull sale credit to be used in 2019. (A minimum of 15 bulls must be taken home for this incentive to take place) and furthermore for each additional 15 bulls an additional \$500 credit will be drawn. Purchases are to be settled for on the day of the sale. Unless alternate arrangements have been made with Border Butte for other payment options. Call Dale Bosch 403-647-4392

SIGHT UNSEEN PURCHASES

If you wish to participate but are unable to attend the sale, please feel free to call us or the Medicine Hat Feeding Co. to take advantage of our 100% Satisfaction Guaranteed-"Sight Unseen Purchase Plan".

TERMS & CONDITIONS

All Bulls sell under the standard terms and Conditions set forth by the Canadian Angus Association.

GUARANTEE: calendar year bulls will return home and be semen tested and evaluated by a qualified vet. 2 year bulls have been semen tested and evaluated. Bulls that fail to be satisfactory breeders will be replaced or credit given on purchases or replacement from the seller. They should be returned to the consignor in good condition and properly cared for so they can be re-evaluated. Border Butte is responsible only to the purchase price of the bull in question. Each animal becomes the responsibility of the purchaser at the fall of the hammer.

INSURANCE: We recommend you insure your purchase as purchaser assumes responsibility at the fall of the hammer. An insurance agent will be available on Sale Day. Western Financial Group (MHD).- Brad George- will be representing. Phone: (403) 526-2885 Fax: (403) 527-9291 Email: brad.george@westernfg.ca

HEALTH: Animals are from TB and Bangs free area. They are examined by a qualified veterinarian at semen testing time.

TERMS: Terms of sale are cash or cheque payable at par in Canadian Funds to Sale Clerk on sale day. No animal will be released without satisfactory settlement.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcement from the Stand at sale time and such correction shall take precedence over the printed matter in this catalogue.

SEMEN INTEREST: We reserve the right to draw semen on any catalogued bull at our expense, and buyers convenience.

MEDICINE HAT FEEDING CO. Manager: Lyle Taylor, Field Rep: Nolan Herman, Ph. 1.800.452.3129 or 403.526.3129

Only one calf on offer by this bull but numerous daughters have sons in the sale and the fact that his unsurpassed growth and maternal milk both ranked him in the top 1% of the breed. His ability to consistently sire growth and maternal with a diverse pedigree made him extremely popular. He proved to be a herd strengthener here and the product is seen year after year in his daughter and granddaughters production.

Purchased in the spring of 2018, a direct son of LD Capitalist 316 who's semen was unattainable in Canada. He has been accredited for siring the type and kind of cattle desired by producers around the world. He has been a proven calving ease sire that is known for siring cattle with true width, dimension, muscling and desirable Angus character. He is one of the heaviest used sires in many countries. So with that this son carrying so many of the characteristics we were looking to add to our herd we brought him home. Unfortunate circumstances lead to only a few calves being conceived. So this will be the only set of calves offered by this truly impressive bull.

305E sold through the 2018 Spring bull sale to Valley Blossom Ranch as high selling bull. A direct son of Bruns Blaster, a bull who we have had extreme luck with. The twist this bull adds is the maternal side of the pedigree. 6 generations have been raised through our family and traces back in its origin to the Miners Coulee herd that was located just down the road from the ranch today, Aden AB. The quality and longevity of this part of his pedigree is what excites us the most. The udder quality and hoof structure are the strongest in the herd. The resulting progeny from this bull have been everything we could ask for, Short gestation which is beneficial for light birth weights in first calving heifers. A large group of females bred to him last year here and at Valley Blossom Ranch resulted in 70 registered calves, with average birth weight being 77 lbs. He didn't stop there, in our program the bull calves averaged over 800 lbs and came from first calf heifers. You might agree they are the strongest sire group we have on offer this year. Something we are so proud of.

Maternal Brother to high selling bull in the 2018 spring bull sale. Selling to Valley Blossom Ranch at \$20000 and siring numerous top sons in this sale. The unmatched length of this Black Loch son offering a lighter birth weight in a mature level. Being a late February born calf we elected to not put him in the bull sale last fall but to save him for a two-year-old feature in this year's sale.

One of only a few Colonel calves we got from the newly acquired Musgrave bull. Selected for his fresh genetic package but because of circumstances out of our control he only saw service to a few females resulting in very few offspring. But the reason we bought him is visible through this calf. Length, substance, tremendous foot. This calf from a Black Loch dam being the icing on the cake.

92	805								

A real neat calf in his own right, not just for his different pedigree but from his tremendous dam and his angular look and presence only shadowed by his extra width from behind and strong top. A calf that will have many friends come sale day. Brothers at Mervin Seitz & Northslope Ranching.

Here's a calf that possesses so many of the traits of his father. His Dam has been quick to prove her worth, this being her third bull calf all making a debut through the bull sale at or near the top of the sale order each year. This guy following suit, and the exciting twist of the 305E bull that has done a bang up job in his first year. If you're in the market for a moderate birth weight calf with explosive performance circle this calf's number to take a look come sale time. Brothers at O+ and Wisdom Ranching.

Another stand out 305E son. Easy to pick out with a friendly demeanor, and a side profile that will catch anyone's attention. No shortage of muscle and power with this guy. Length and style wrapped into one.

LOT 350G, ALTERNATE VIEW BELOW

How do you ramp up to talk about one of your top picks that has held one of the top spots all year. You don't. Born early, gestation at 70lbs, walking large pastures all summer, coming off a first calver that would give anyone shivers to see her ability to maintain her condition while knocking this guy out of the park all during one of the driest years. If I could predict the future it would be that this guy and his dam have a hugely bright future ahead of them.

How do you follow a calf like 350. Well you bring in lot 358 a paternal brother. So many similarities from the tremendous job done again by a first calf heifer to the big middle, ample rear, great structure in this calf. From the sire we have been the most excited about in years. Genuinely knowing and raising five generations of his dams side of the pedigree.

Dam was purchase from Blast Angus in BC. Going back to the Fundamental bull they bought in the spring of 2015. This calf shows what the dam strengths are with shape and depth, a great foot under her, and a great hair coat. A shapely calf that has performed well off his moderate easy doing mother. A nice maternal package here, from both sides of the pedigree.
