Videos of all bulls and online bidding at DVAuction.com

As much as the whole world has been turned upside down in the past 12 months, and it feels like life will never go back to normal, we have a lot to be thankful for as agricultural producers. Society has received a wake-up call about the importance of a reliable, quality food supply. This bodes well for the future, and as restrictions lift over the summer and people can gather for a BBQ, or go back to their favorite restaurants, I am certain that it will be beef that is on the menu. The other thing we can be thankful for is that our cows don't know what Covid is. They still need to be fed everyday, and they are still going to have to be bred.

We all have had to adapt to some changes in our daily lives, and how we conduct the sale is going to be a little bit different this year. We have moved the sale home and will be conducting a video sale. This format will greatly reduce the amount of stress on the bulls, and us. We encourage you to come view the bulls in their natural environment at your convenience either before the sale, or on sale day. We also will have videos available of the entire offering the end of February. The safety of our customers is very important to us and we will be following safety protocols and guidelines, so you may attend our sale with confidence. If you prefer to bid online, on the phone, through our sale staff and marketing agents, or wish to leave an order, we have many options available to make your buying experience as easy as possible. Every year our sight unseen purchase program grows in popularity and we guarantee your satisfaction upon delivery.

Our bull offering this year is the deepest in quality it has ever been. Our two-year old offering is slowly growing in numbers without lowering our standards on quality. These bulls represent the youngest 50% of our calf crop and are specifically held over. Our yearling offering has some exciting new genetics on offer, as well as our older, proven sires. There are many bulls produced through embryo transplant representing some of the best cows in the Angus breed. You have the opportunity to select many $\frac{1}{2}$, $\frac{3}{4}$ and full brothers. We always have a strong offering of calving ease bulls, but we also can not emphasise enough that strong growth and maternal traits have always been a priority in our breeding program. There are a lot of bulls for sale in the country, but we would put our cow herd, and performance record up against any herd, or breed, in the land.

Our female offering is slightly smaller this year as we plan to breed more heifers ourselves this year. A group of F1 Simmental x Red Angus heifers is a feature, as well as our straight Red Angus heifers.

We certainly do appreciate our customers and all the support they have given us over the past twenty years. Many have supported us right from our first sale, and it is rewarding to now even see the next generation putting their trust in our program. We stand behind what we sell, and our goal is to make you a satisfied, repeat customer. Feel free to call or text us with questions, we are always happy to talk about cows.

CUSTOMER SERVICE PROGRAM

Terms: Our terms are 50 percent due sale day and a post-dated cheque for the balance dated May 31, 2021.

Volume Discount: Purchase three or more bulls and receive a 3 percent discount, five or more bulls receive a 5 percent discount.

Delivery: Bulls will be delivered as soon as possible following the sale. They may stay on the farm until delivery can be made or you pick up your purchase. Commercial females must be picked up within one week of sale day.

Wintering: We are willing to winter all sale bulls free of charge until April 1. After that date all buyers will be contacted, and arrangements will be made for delivery or pick-up. All bulls staying on the farm MUST be insured for full mortality.

Insurance: Larry Toner Agencies will be available for your insurance needs on sale day. Remember all bulls staying on the farm must be insured for full mortality.

Common Sense Breeding Guarantee: All bulls will be semen tested and vet inspected. We fully guarantee all bulls sold 100 percent. In the event of a problem, we guarantee to provide you with a quality bull to get your cows bred. We understand that when your livelihood depends on your cow herd's production you need service and not hassles.

Sight Unseen Purchase Program: Call us with your needs and we will recommend suitable bulls. We know our bulls better than anyone and can help you source the best bulls for your program. We have professional and knowledgeable cattlemen that can provide you with a second opinion as well. All orders are handled in strict confidence!

Online Bidding: The entire offering will be videoed the end of February and will be available on our website and www.dvauction.com. Online bidding will be available sale day, we encourage bidders to log in prior to sale day to get registered.

WHAT DO THE NUMBERS MEAN?

Calving Ease Rating System:

★ **Power Plus:** Bulls marked with this symbol have more punch and will have larger calves at birth and more performance at weaning time. They are recommended for cows only.

★★ **Curve Bender:** Bulls marked with this symbol have more moderate birth weights while maintaining performance. They can be used on cows with no problems or large, well developed heifers preferably of British breeds. A few assisted births may be expected out of heifers.

★★★ **Sleep Easy:** As the name implies, a Sleep Easy sire is a calving ease bull that lets you sleep easy knowing you should have very little calving difficulty. These are the bulls we recommend to use on heifers.

Notes About EPDs:

BW EPD: The birth weight EPD is a figure expressed in pounds and is a predictor of an individual's contribution to its progeny's weight at birth.

WW EPD: The weaning weight EPD is expressed in pounds as the average weight of his progeny compared to an average bull of the breed for weaning weight.

YW EPD: The yearling weight EPD is expressed in pounds as the average weight of his progeny compared to an average bull of the breed for yearling weight. It is the best indicator of overall growth.

Milk EPD: The Milk EPD is a predictor of a sire's genetic merit for milk as expressed in his daughters, or in other words, that part of weaning weight attributed to a mother's milk genes.

CE EPD: The Calving Ease EPD is a percentage of probability that a bull's calves will be born without any assistance. Therefore, animals with a higher positive number will have greater probability of having no calving problems.

MCE EPD: The Maternal Calving Ease EPD is a percentage of probability that a bull's daughter's calves will be born without any assistance. Therefore, daughters of an animal with a higher positive number will have a greater probability of having no calving problems.

DVAuction

Can't make the sale? Bid from home with DV Auction's real time internet bidding service.

1. Create a account at www.dvauction.com under the "Create New Account" tab

2. Apply for a bidding approval by clicking on the "Apply for Bidding" tab at least 24 hours prior to the auction. A DV representative will notify you once you have been approved.

3. Tune in for the sale and make your purchases.

After the sale, contact the sale manager or owner to arrange transportation and payment. High Speed internet is required for successful bidding.

Proxy Bidding - If you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away.

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can always be reached at (402) 316-5460

The DV Auction representative for the Wheeler's Bull & Female sale is Sarah Buchanan 306-681-5340

THE WSF PROGRAM

You will notice in this year's catalogue that we did not write footnotes. We found we were getting extremely repetitive, and that it is difficult in limited space to explain the differences between bulls. Our goal is to have an offering of bulls that are similar in the basic traits that are of most importance. We want every bull to offer sound structure, fertility, a balance of calving ease and performance, and be backed by an outstanding maternal cow. If you have questions about specific bulls, and would like recommendations, please feel free to call us or visit with us on sale day and we can discuss your specific goals and recommend bulls to get you there.

The principles of our breeding program are based on breeding cattle that are balanced in all traits. We have placed special emphasis on improving the overall width, hip structure and muscling in our cattle; they are not your average Angus. While above average performance is desirable, we also understand the importance of calving ease and maternal traits which have gotten the Angus breed where it is today. The basics of strong hoof and udder structure are not compromised in our pursuit of genetic improvement. In all our travels we have learned there can be a big spread in what people call a "good udder" or "good foot". We set our standards high. We often hear feedback about the quiet disposition of our cattle. With three young boys that often help us work cattle we do not tolerate bad attitudes.

The Angus female is the basis of the commercial cowherd in North America. Her strong mothering ability, fleshing ability, fertility and milk production have made her the cornerstone of our industry. The instincts of the Angus cow are part of her trouble-free

design which have made her often imitated, but never duplicated by other breeds. When selecting our own herd bulls their own mother is a large part of our selection criteria. You will often hear us speak about cow families and they are an extremely important part of breeding consistent and profitable genetics.

Although we have utilized AI to bring in new genetics, we continually rely on our own herd bulls to raise the bar. We have found we can achieve more rapid, consistent improvement in our herd by utilizing the strengths of our bulls. No animal is perfect, but by

analyzing the strengths and weaknesses of our sires and dams we can mate them to produce a more ideal animal. We have also learned over the years to not underestimate the potential of our own genetics, and therefore you will notice we are using more sires that carry our own prefix. As our herd has improved it has become increasingly more difficult to source new genetics that

will maintain or improve our herd from its current level. That is why we are now focusing on producing more of our own sires and have started introducing more genetics from the Black Angus gene pool to find an outcross.

A GOOD UDDER

A GOOD FOOT

NO BAD ATTITUDES

Reference SIREs

RED MANN **Red Box** 55C

Red Box has taken the breed by storm offering a fresh pedigree that also offers the quality everyone is searching for. His semen commands \$300 US per straw so his genetics are very limited in Canada. Take advantage of this opportunity to be one of the first to add his genetics to your herd. Red Box did a great job of consistently siring the dark red colour everyone loves and did not throw any white. His calves are good footed, with good bone and have tremendous depth of body and rib shape. We mated him to some of our best females

EPDS **BW 2.3 | WW 43 | YW 78 | MILK 26 | CE 3.0 | MCE 1.0**

RED PELTON **WideLoad** 78B

This sale will be your only opportunity in Canada to access WideLoad genetics. His semen is not available in Canada and the bulls in our sale are the result of flushing one of our best donors in the US and importing the embryos. WideLoad is a half brother to the popular sire Red Box, and offers similar eye appeal and correctness in his progeny. His calves have character and muscle shape while offering calving ease.

EPDS **BW -0.2 | WW 36 | YW 63 | MILK 20 | CE 9.0 | MCE 6.0**

RED BAR-E-L **Anthem** 46A

Anthem was purchased as a proven herd bull to inject some of the Atlantic City influence back into our herd. Anthem is a balanced performance sire with extra bone, a big square hip and a deep rib. His dam is an exceptional female, and the Anthem daughters in production have proven him to be a strong maternal sire. We feel Anthem is one of the best all around breeding bulls in the Red Angus breed today.

PERFORMANCE **BW 88 | 205D 753 | 365D 1275**
EPDS **BW 3.3 | WW 38 | YW 69 | MILK 23 | CE -1.0 | MCE 10.0**

Reference SIREs

RED TER-RON **Riddler** 57F

After a long search in the spring of 2019 Riddler was our choice to add to our herd bull battery. His pedigree is stacked with proven genetics that are known for their foot size and shape, muscle expression, and power in a moderate mature size. Riddler sired a consistent group of both sexes. His heifer calves in the replacement pen are soft made with an attractive look. They sure look like they will make great cows.

OWNED WITH LODOEN CATTLE CO.

PERFORMANCE **BW 81 | 205D 847 | 365D 1356**
EPDS **BW 4.5 | WW 62 | YW 97 | MILK 26 | CE -11 | MCE 1.0**

RED U-2 **Reckoning** 149A

Reckoning is one of the most in demand Red Angus bulls, and semen has been a hot commodity, so we invested in his genetics to flush some of our donor cows. Reckoning is a proven sire that has set a standard in the breed for foot size & quality, and depth of heel. His sons have been high sellers everywhere he has been used and his daughters are beautiful uddered, feminine cows.

PERFORMANCE **BW 77 | 205D 713 | 365D 1430**
EPDS **BW 2.4 | WW 38 | YW 75 | MILK 30 | CE -2.0 | MCE 6.0**

RED WHEEL **Creed** 214C

Creed captured the attention of all that witnessed his exceptional length, bone and muscle. He is a powerful bull that offers an outcross pedigree to most breeding programs. He was produced from our Jestress cow family which is known for being huge ribbed, good footed females which offer above average udder and teat quality. Few bulls offer the power that Creed possesses without sacrificing maternal strength. **SEMEN AVAILABLE**

PERFORMANCE **BW 87 | 205D 772**
EPDS **BW 4.8 | WW 47 | YW 81 | MILK 28 | CE -3.0 | MCE 3.0**

Reference Sires

RED SSS **Hard Eight** 800D

Hard Eight was purchased to serve in our heifer pen and he has proven to be a true calving ease sire. We felt this dark red, good footed Max son would be popular with our customers looking for highly maternal, calving ease genetics. What sealed the deal for us was his dam and sisters in the SSS herd. Hard Eight is also a maternal brother to Red SSS Contender who is a popular herd sire at SSS. Hard Eight daughters have very tidy udders with ideal teat size.

OWNED WITH Y-COULEE LAND & CATTLE

PERFORMANCE **BW 74 | 205D 703 | 365D 1244**
EPDS **BW -3.2 | WW 15 | YW 25 | MILK 19 | CE 10.0 | MCE 10.0**

RED TER-RON **Monopoly** 84A

We added Monopoly to our program to add some outcross calving ease genetics. Monopoly is a son of Ter-Ron Park Place who is a son of the famous HF Tiger 5T. We wanted to add the short gestation genetics of Tiger into our red cattle. Monopoly's calves arrive early and without any assistance. In addition to calving ease, Monopoly also has an exceptional hair coat, and is deep sided. He is still covering a pasture for us and is very sound with excellent feet.

PERFORMANCE **BW 72 | 205D 669 | 365D 1258**
EPDS **BW -3.6 | WW 39 | YW 74 | MILK 17 | CE 11.0 | MCE 9.0**

RED BAR-E-L AB **Magic Mike** 189Z

Magic Mike offers exceptional maternal strength. After seeing his dam Meg 85N and maternal sisters we knew we had to incorporate his genetics. His sire Indeed is one of the legendary maternal sires in the breed. Fertility, udder quality and longevity are traits where he excels. His daughters have awesome udders with very small teats. We feel so strongly about the maternal merit of Magic Mike that we purchased a half interest in his full sister Red Bar-E-L AB Meg 169Z.

OWNED WITH ALLISON FARMS RED ANGUS

PERFORMANCE **BW 94 | 205D 742 | 365D 1313**
EPDS **BW 4.5 | WW 48 | YW 70 | MILK 29 | CE -14.0 | MCE -6.0**

Reference SIREs

BLACK WHEEL **Dracarys** 178E

Dracarys ("drah-KAH-ris") is one of the most exciting sires we have ever used in our program. He is one of the first sires on the market that has produced red descendants of the great breeding sire Brooking Bank Note. Dracarys progeny speak for themselves being moderate at birth with above average growth. His male and female progeny are equally impressive for their added volume, mass, bone, feet and hair. His dam is an absolute tank of a female and comes from a long line of highly productive, great uddered cows. Dracarys is poised to set the breed on fire!

PERFORMANCE **BW 98** | **205D 881**
EPDS **BW 0.9** | **WW 65** | **YW 103** | **MILK 20** | **CE 1.0** | **MCE 10.0**

BROOKING **Bank Note** 4040

Bank Note has proven his breeding ability with high sellers and champions produced wherever he has been used. We believe so strongly in his breeding ability we are continuing to add more of his genetics into our program. His calves are stamped with his depth of body and easy fleshing ability while maintaining an attractive look. Like all our sires he was raised by a tremendous dam and strong cow family.

PERFORMANCE **BW 86** | **205D 921** | **365D 1548**
EPDS **BW 2.9** | **WW 69** | **YW 116** | **MILK 9** | **CE 1.0** | **MCE 11.0**

SOO LINE **Motive** 9016

Motive has proven to be one of the best sires in the breed in terms of calving ease and maternal strength. He has been a heavily used AI sire in heifer projects while his daughters are known for their true Angus character, fleshing ability and udder quality. Our customers continue to ask for more Motive sons.

PERFORMANCE **BW 71** | **205D 781** | **365D 1354**
EPDS **BW 0.3** | **WW 47** | **YW 85** | **MILK 21** | **CE 5.0** | **MCE -2.0**

HETEROZYGOUS BLACK

How often does the opportunity arise to purchase a proven outcross herdsire that is still in his prime? If not for the fact we have produced red sons that are seeing heavy use in our program, Dracarys would not be offered for sale. He is the highly popular son of Brooking Bank Note that has so much to offer the Red Angus breed. In his first calf crop his sons averaged \$9700 selling to many leading programs. Dracarys excels in terms of foot quality, fleshing ability, moderate birth weights, high growth, scrotal, and hair. His daughters calving now have ideal udders and milk flow, which comes as no surprise, as he is backed by our tremendous Jestress cow family and donor dam Black Wheel Jestress 1Y.

Commercial HEIFERS

HARD EIGHT

ANTHEM

The open replacement heifers have become a feature in the sale. These heifers offer a rare opportunity to purchase foundation seedstock females that have been developed from a purebred Angus cow herd.

A sale feature will be a small group of true F1 Simmental Red Angus heifers. They are sired by a son of Wheatland Final Affair and were raised by our purebred Red Angus mommas.

We are also offering a group of straight-bred Red Angus females. This is a great opportunity to access replacement heifers that could provide the foundation for an F1 program. Most of the group are sired by our walking herd sires Anthem, Creed and Hard Eight.

We just can't keep them all! They will be presented in working condition and have been developed side-by-side with our own replacements, receiving no additional feed. They will continue to grow and develop for their new owners.

Our 2021 offering is slightly smaller as we had more bull calves in 2020. We will be offering approximately 12 heifers. They will be sorted and split into smaller groups of 3-5 head at sale time based on weight, breeding and type. We will have a supplement sheet available at the sale with more information.

Heifers must be picked up from the yard within a week after the sale.

All heifers have been poured with Ivomec and received two doses of Ultrabac 7 and Zoetis Bovi-Shield Gold One Shot.
